Thank you for spending time reviewing our annual security report. Northwestern Health Sciences University publishes this report in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act), Campus Sexual Violence Elimination Act (Campus SaVE Act) and the Higher Education Opportunity Act of 2008 and Minn. Stat. § 135A.15. This report includes statistics for the previous three years concerning reported crimes that occurred on campus or property owned or controlled by Northwestern Health Sciences University and on public property within, immediately adjacent to, and/or accessible from the campus.

Northwestern Health Sciences University is committed to ensuring a safe environment for all members of our community by providing adequate and appropriate security services and establishing procedures for reporting crimes on campus. However, a safe campus can only be achieved with the cooperation of all members of the campus community. Students and employees are encouraged to be aware of the safety issues on campus and to act to prevent and report illegal and inappropriate activities. All employees are required to report any alleged sexual misconduct to the Title IX Coordinator.

This report is written by the Office of Human Resources and we work diligently with other departments and agencies to compile the necessary information for this report. We encourage all community members to review this report. If you have any questions, please contact Dr. Christian Jovanovic, Associate Professor and Student Title IX Coordinator or Mary Gale, Vice President of Human Resources and Employee Title IX Coordinator.

A copy of this report is available during regular business hours in the Offices of Student Affairs and Human Resources.

Let’s work together to ensure a safe and secure environment at Northwestern Health Sciences University.

Sincerely,

Deborah Bushway, Ph.D.

Campus Safety
Northwestern Health Sciences University does not have a campus law enforcement staff and does not have residential facilities. Campus safety and security duties are the responsibilities of the Facilities department.

The Facilities department is responsible for maintaining University owned buildings and grounds with a concern for safety and security. Primary safety and security functions of the department include:
* conduct routine security and safety inspections;
* investigate reported incidents and suspicious activities;
* provide escort services for the main campus
* monitor main campus building access;
* secure and unlock main campus buildings according to schedule;
* monitor closed circuit television system on the main campus;
* enforce campus parking regulations;
* maintain the campus card access system for the main campus;
* monitor security, fire and building-mechanical alarm systems;
* contact law enforcement agencies when required.

Employees of the Facilities department perform routine safety functions on the main campus Monday through Friday from 7 a.m. to 4 p.m. and emergency assistance is available through local police, fire or medical agencies. The University provides contract security personnel on the main campus Monday through Friday from 4:00 p.m. to 12:00 a.m. and weekends from 7 a.m. to 11:00 p.m. Contract services for special events may be made with off-duty police officers. Facilities and Security personnel do not have police powers or the authority to arrest individuals. All applicants for security or facilities positions undergo a background check in compliance with Minnesota regulations.
Escort service is available by calling extension 232.

The Facilities department or security personnel are responsible for first response to all emergency situations until assistance is available by local police, fire or medical agencies. NWHSU maintains a close working relationship with the Bloomington Police Department, state and federal law enforcement agencies, and all appropriate elements of the criminal justice system.

Campus Access

All areas of the main University campus are accessible during normal business hours Monday through Friday. Some areas of the campus such as the library, student lounge, and cafeteria are also accessible evenings and weekends. Outside doors to the campus are equipped with electronic card access control systems that keep a record of entrances and exits from the building. The campus building is accessible by card access only from 6:00 p.m. to 10:30 p.m. Monday through Friday and from 7 a.m. to 9:30 p.m. Saturday and Sunday. Surveillance camera systems operate 24 hours a day at key interior locations.

Crime Prevention

Crime prevention is a shared responsibility of the University and members of the campus community. The University efforts are based on minimizing or eliminating criminal opportunities along with encouraging students and employees to be responsible for their own security and the security of others. Northwestern provides information regarding campus security, sexual harassment and violence, substance abuse, and unacceptable behavior during new student orientations and through its student handbooks.

Students and employees are encouraged to:
* report all incidents or suspicious activities immediately
* lock your motor vehicle at all times
* protect your personal property when on campus
* maintain custody of the keys and access cards which you have been provided, and report promptly the loss of any such keys or cards.
* use the correct size lock for lockers
* don’t leave books, jewelry, wallets, keys, backpacks or other valuables unattended
* don’t leave valuables visible in motor vehicles
* don’t leave purses unattended in unlocked desks
* don’t leave valuables on a chair behind you while at a study carrel, in the library or computer lab

Reporting Crimes on Campus

Students and employees of the University are encouraged to immediately report emergencies and criminal activities using the following guidelines:

1. If immediate danger to life or property exists, dial 911.

2. On campus incidents involving violence or injury should be reported immediately by contacting local law enforcement officials (911) and the Facilities department using the emergency extension 555. University officials will assist victims of crime in notifying local law enforcement officials upon request.

3. Report any personal property loss to the following:
   • Facilities Director (extension 232)
4. Incidents that involve offensive or harassing behavior, a violation of the University's anti-drug and alcohol policies or incidents of domestic violence, sexual assault or stalking should be reported to one of the following:
   - Associate Professor and Student Title IX Coordinator (extension 309)
   - Vice President, Human Resources and Employee Title IX Coordinator (extension 437)

5. When circumstances warrant, special security alerts will be distributed to students and employees using the campus e-mail system, RAVE and/or postings, including digital signage.

Memorandum of Understanding

Northwestern Health Sciences University has entered into a Memorandum of Understanding (MOU) with the Bloomington Police Department to assist with investigation of crimes as required by Minnesota Statute.

The Minnesota Statute requires postsecondary institutions and local law enforcement agencies to enter into a MOU that delineates responsibilities and requires certain information sharing, in accordance with applicable state and federal privacy laws, about certain crimes.

Education and Prevention Programs

The University engages in comprehensive web-based educational programming which consists of primary prevention and awareness programs for all incoming students and new employees as well as ongoing awareness and prevention campaigns for students and faculty and staff that identify and define Sexual Misconduct and Stalking, identify and define Consent for Sexual Harassment, Sexual Abuse, and Relationship Violence, provide safe and positive options for bystander intervention, provide risk reduction information. Additional programming may be communicated through a variety of communication strategies including email blasts, notices on bulletin board, etc. These campaign programs will occur on a regular basis and no less frequently than once per year.

Responsibility for Compliance with Campus Security Act

The Director of Facilities has responsibility for:
   - Overseeing the supervision of campus security.
   - Providing timely warning to the University campus community of any occurrences of a serious or continuing threat to students and employees on campus.
   - Assigning primary responsibility to respond to and to take appropriate action on reports of criminal actions and other emergencies.

The Student Title IX Coordinator and the Employee Title IX Coordinator share responsibility for:
   - Preparing, publishing, and disseminating all required policy statements, operating procedures, and reports as required by law.
   - Supervising and overseeing the execution of all established policies and procedures.
   - Supervising and overseeing the gathering and reporting of all statistics as required by law.
Crime Alerts

Crime Alerts, also known as “timely warnings,” are used to inform the campus community of security issues and campus crimes that, in the judgment of the Director of Facilities or their designee, constitute an ongoing or continuing threat. Crime alerts may be distributed selectively, to an effected group or area of campus, or to the entire campus as circumstances warrant. Crime Alerts may be distributed via e-mail, posted in or near building entrances and/or posted on the University web site and through our RAVE alert system.

Notification of an Immediate Threat

If the President and CEO or his designee confirms that there is an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the University community, the members of the Preparedness and Response Team will collaborate to determine the content of the message and will use some or all of the systems described below to communicate the threat to the University community or to the appropriate segment of the community. If the threat is limited to a particular building or segment of the population the Preparedness and Response Team will, without delay and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the judgment of the first responders (including, but not limited to: Preparedness and Response Team and/or local police, fire and emergency medical services), compromise the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

In the event of a serious incident that poses an immediate threat to members of the Northwestern community, the University has various systems in place for communicating information quickly. Some or all of these methods of communication may be activated in the event of an immediate threat to the campus community. These methods of communication include network emails, emergency text messages through the NWHSU RAVE Alert, broadcast phone calls, 2 way radios and telephone calling trees.

TITLE IX, CAMPUS SaVE ACT, and Minn. Stat. § 135A.15 POLICY for Students
(Includes: SEXUAL HARASSMENT, HARASSMENT, DISCRIMINATION, & SEXUAL VIOLENCE)

It is the policy of the Northwestern Health Sciences University (the “University”) to maintain a learning environment that is free from sexual harassment, sexual intimidation, sexual exploitation, harassment, discrimination or sexual violence, including when these crimes are based on actual or perceived race, color, creed, religion, national origin, sex/gender, ethnicity, gender identity, marital status, familial (or parental) status, disability, status with regard to public assistance, sexual orientation, age, family care leave status or veteran status or any other protected class defined by law. The University prohibits any form of harassment, violence or discrimination based on actual or perceived protected class status. In addition, the University prohibits dating violence, domestic violence, sexual assault, and stalking.

It is a violation of this policy for any student, faculty member, or staff member to (1) harass a student through conduct or communication (e.g., physical, verbal, graphic or written) or to (2) discriminate against a student based on that individual’s actual or perceived protected class status; or to (3) inflict, threaten to inflict or attempt to inflict violence against a student.

The University is committed to promptly and fairly investigating and addressing incidents of sexual misconduct. **Retaliation against a person who reports or complains about sexual misconduct, sexual harassment, harassment, discrimination, or sexual violence or who participates in or supports the investigation of a complaint is also prohibited and will not be tolerated.**

This policy applies to all of the academic and nonacademic (extracurricular) programs of the University and will be enforced on University property, owned or leased, including the University-hosted social functions, or events sponsored by the University but held at other locations. The policy also applies to conduct that occurs in certain circumstances as defined in this policy in a non-campus building or on non-campus property or on public property. The policy also applies to any off-campus conduct that causes or threatens to cause a substantial and material disruption at

---

1 Title IX as well as other laws require that the University not discriminate on the basis of sex in the University's education programs and activities as well as employment. Inquiries regarding the application of Title IX may be made to the Student Title IX Coordinator identified in Section II below.

2 Id.
the University, or interferes with the rights of students to be free from a hostile learning environment taking into consideration the totality of the circumstances on and off campus. That said, students are encouraged to report any instances of sexual misconduct to the University and if such report falls outside this particular policy, the University will assist the student in reporting the incident to the proper party or authorities.

The University will also promptly and appropriately investigate all complaints of sexual harassment, harassment, discrimination, or sexual violence—whether formal or informal, verbal or written—based on a student’s actual or perceived protected class status, and will discipline or take appropriate action against any student, faculty, or staff who is found to have violated this policy. The University will investigate and, when appropriate, will conduct prompt, fair, and impartial investigation proceedings for complaints of all sexual misconduct, including but not limited to dating violence, sexual assault, and stalking.

If a University investigation reveals that harassment created a hostile environment, the University will take prompt and effective steps to end the harassment, eliminate the hostile environment, prevent the harassment from recurring and, when appropriate, remedy the effects of the hostile environment.

Any student who needs a reasonable accommodation to be able to make or respond to a complaint, or engage in any other activity detailed in this Policy, should contact the University’s Disability Coordinator in Student Affairs, the Student Title IX Coordinator, or Vice President of Human Resources to request an accommodation.

I. DEFINITIONS

All crimes detailed in this Policy can occur between different sexes or same sex individuals.

   • Understanding institutional structures and cultural conditions that facilitate violence, overcoming barriers to intervening, identifying safe and effective intervention options, and taking actions to intervene

D. Campus means any building or property owned, leased or controlled by the University within the same reasonably contiguous geographic area of the University and used by the University in direct support of, or in a manner related to, the University’s educational purposes, and property within the same reasonably contiguous geographic area of the University that is owned by the University but controlled by another person, is used by students, and supports University purposes (such as a food or other retail vendor).
E. **Campus Safety Officer.** The person who is responsible for compliance with the requirements of the Clery Act.

II. **REPORTING PROCEDURES FOR INCIDENTS OF SEXUAL HARASSMENT, HARASSMENT, AND/OR DISCRIMINATION** (please see Section III for reporting Sexual Violence)

A. If a student believes that he or she has been subject to sexual harassment, harassment, or discrimination by another student, faculty member, staff member, or any third party, he or she may report the conduct as set out below. If a student observes sexual harassment, harassment, or discrimination he or she may report the conduct to the following:

The Student Title IX Coordinator, (952) 888-4777 x309 or the Vice President of Human Resources (952) 885-5437. If the student is reporting an incident relating to an employee, he or she should also make a report to the Employee Title IX Coordinator (952) 885-5437.

Students may also make a report on the University’s Title IX Reporting Hotline. The University’s hotline is hosted by a secure, independent provider, EthicsPoint and reports are treated confidentially. Reporters may remain anonymous and the IP address of computers cannot be traced. Reports will be provided to the Vice President of Human Resources. It should be understood that an investigation may be hampered or be impracticable if the reporter cannot be identified and questioned about the incident and related facts. There are two ways to use the hotline:

- Phone: toll-free, within the United States, Guam, Puerto Rico and Canada: 855-748-5772.

Unless statutorily prohibited, any University employee who receives a report or complaint of sexual harassment, harassment, or discrimination regarding a student is required to immediately report it to the Student Title IX Coordinator.

The student also has the right to decline to notify any authorities. As necessary, the University reserves the right to initiate a complaint, to serve as complainant, and to initiate conduct proceedings without a formal complaint or, if necessary, consent, by the victim or complainant.

B. If a student believes that he or she has been a victim of a forcible or nonforcible sex offense, including dating violence, domestic violence, sexual assault, or stalking, on campus, and in certain circumstances as defined in this policy in or on non-campus buildings or property, or on public property, he or she should, if desired, report the incident to the University as outlined in section II. A. and/or local police agencies.

C. If a student believes that he or she has been a victim of the criminal offenses of larceny-theft, simple assault, intimidation, and destruction, damage, or vandalism of property, and/or any other crime involving bodily injury to any person, in which the victim believes he or she was selected
because of his or her actual or perceived gender, sexual orientation, or gender identity, he or she should, if desired, report the incident to the University as outlined in section II. A. or local police agencies.

D. The willful filing of a false report will be considered to be a violation of University policy.

E. Although confidentiality cannot be assured, the University will respect the confidentiality of the complainant, the reporter (if someone other than the complainant), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the University’s obligations to investigate, to take appropriate action, to publish recordkeeping, and to comply with any legal obligations.

III. REPORTING PROCEDURES FOR INCIDENTS OF SEXUAL VIOLENCE

A. Reporting Complaints

1. We encourage victims of sexual violence to seek immediate medical and emotional assistance, including treatment for injuries and preventative treatment for sexually transmitted diseases. Assistance is available by calling 911, the Bloomington Police (952-563-4900), Campus Safety Officer extension 394. Medical treatment, including rape kits, may help victims preserve evidence of sexual violence and misconduct. University security staff responding to an incident of sexual violence will inform the victim of his or her options to notify law enforcement authorities, seek medical assistance, and the University’s reporting process; and security staff will assist the victim with these contacts if the victim requests such assistance.

It is important for victims to preserve any evidence resulting from sexual violence that could be needed for criminal prosecution. Campus security will provide assistance in preserving materials considered relevant to the internal complaint process and, when requested by the police, provide assistance in obtaining, securing, and maintaining evidence needed for criminal prosecution.

Victims of sexual assault have the right to complete and prompt assistance of campus authorities, at the direction of law enforcement authorities, in obtaining, securing, and maintaining evidence in connection with a sexual assault incident.

The victim may report to the police, to the University, neither, or both. The University recognizes that the decision to report sexual violence to the police is the right of the victim. However, the University strongly encourages the immediate reporting of sexual violence to the following:

The Student Title IX Coordinator (952) 888-4777 x309 or the Vice President of Human Resources (952) 885-5437.

Unless statutorily prohibited, any University employee who receives a report or complaint regarding a student should immediately report it to the Student Title IX Coordinator.
2. If a student reports to the University that the student has been a victim of domestic violence, dating violence, sexual assault, or stalking, whether the offense occurred on or off campus, the University will provide the student with a written explanation of the student’s rights and options.

3. When applicable, the University will notify the victim of his or her rights and the University’s responsibilities regarding orders of protection, no contact orders, restraining orders, or similar lawful orders issued by a criminal, civil, or tribal court (see Resources Section below).

4. Although confidentiality cannot be assured, investigations will be conducted with sensitivity to confidential issues and investigative information will be communicated as appropriate to those with a need to know.

5. If the sexual violence reoccurs, it should immediately be reported to any of the individuals listed above. The Reporting Procedure described above should also be used if a student believes he or she has been subjected to prohibited retaliation or intimidation.

6. In some cases, unless prohibited by law, an individual may pursue criminal action and a University internal complaint concurrently. In certain circumstances, the University is prohibited from waiting for a criminal case to conclude before proceeding in its own internal investigation.

7. Pursuant to the law, the University will collect, prepare, publish, and distribute, through appropriate publications or mailings, to all current students and employees, and to any applicant for enrollment or employment upon request, an annual security report containing, among other things, information relating to the campus crime statistics of the University and statistics concerning the occurrence on campus, in or on noncampus buildings or property, and on public property all criminal offenses reported to campus security authorities related, among other things, to forcible or nonforcible sex offenses, dating violence, domestic violence, sexual assault, and stalking.

**IV. INVESTIGATION**

A. Upon receipt of a report or complaint, the University will notify and, when appropriate, obtain consent from the Complainant to promptly undertake or authorize a fair and impartial investigation. If the allegation is one of domestic violence, dating violence, sexual assault, or stalking, the investigation and disciplinary proceeding will be conducted by an official who receives annual training on the issues related to domestic violence, dating violence, sexual assault, and stalking. This training also includes information about interacting with victims of sexual assault, including how to reduce the emotional distress resulting from the reporting, investigatory, and disciplinary process. No matter the type of sexual misconduct reported, the investigation will be conducted by someone who has been trained on how to conduct a prompt, fair, and impartial investigation; how to provide safety to the victim; and how to promote accountability.

B. The investigation will generally be completed within 60 calendar days from receipt of the complaint. If the investigation proceeding will be delayed, the University will provide the participants with written notice of the delay and the reason for the delay.

C. The investigation may, as appropriate, consist of personal interviews with the complainant, the reporter (if someone other than the complainant), the individual(s) against whom the complaint is filed, and others who may have knowledge of the alleged incident(s) or circumstances giving rise to the complaint. The investigation may also consist of any other methods and documents deemed pertinent by the investigator.
D. If the investigation is based on an allegation of domestic violence, dating violence, sexual assault, or stalking, the complainant and the respondent are each entitled to have others present during a University disciplinary proceeding, including to be accompanied to any related meeting or proceeding by an advisor of their choice. The advisor may not participate in the meeting, but may attend and observe.

E. In determining whether alleged conduct constitutes a violation of this policy, the University may consider the facts and surrounding circumstances, the nature of the behavior, past incidents or past or continuing patterns of behavior, the relationships between the parties involved, and the context in which the alleged incidents occurred. Whether a particular action or incident constitutes a violation of this policy requires a determination based on all the facts and surrounding circumstances using a preponderance of the evidence (i.e., more likely than not) standard to evaluate complaints. During the investigation, the University will never consider evidence about the complainant's prior sexual conduct with anyone other than, when appropriate, the alleged perpetrator.

F. The University, at its discretion, may take immediate steps, based on the severity of the allegations, to protect the parties involved in the complaint process pending completion of an investigation.

G. To ensure the University can gather the information necessary to uphold University policies, each faculty, staff, or student who is requested to participate in a fact finding is required to fully cooperate with the investigator. Unless otherwise directed by the investigator, faculty, students, or staff will be expected to limit their discussion of the matter under investigation to those who need to know the information for the purposes of assisting in the resolution of the complaint. Nothing in this paragraph is intended to limit or restrict in any way a complainant from contacting at any time the police or governmental agencies responsible for the enforcement of any applicable laws.

H. The complainant and the respondent will be simultaneously notified in writing by the Student Title IX Coordinator of any change to the results of the investigation that occurs prior to the time that the results become final.

V. UNIVERSITY ACTION

A. Upon completion of the investigation, the investigator(s) will make a finding of facts report to the Student Title IX Coordinator. If the complaint involves the President, the report must be filed directly with the Board of Trustees.

B. The Student Title IX Coordinator will evaluate the facts, make a determination if the facts violate the policy, and determine any sanction(s). The Student Title IX Coordinator will simultaneously inform the complainant and respondent of the Results of the investigation and any sanction(s) that will be imposed. The Student Title IX Coordinator will issue a report in writing and the sanctions, if any, will be detailed and the rational for the decision will be given, including in all cases of domestic violence, dating violence, sexual assault, or stalking.
C. If a complaint is substantiated, the University will take appropriate and effective action depending on the circumstances. Such action may include, but is not limited to, training, counseling, suspension, expulsion, or other appropriate action.

D. In appropriate situations, the Student Title IX Coordinator will provide written notifications to victims about options for, and available assistance in, changing academic situations, if so requested by the victim and if such accommodations are reasonably available, regardless of whether the victim chooses to report the crime to University administration or local law enforcement.

E. Pursuant to applicable law, the University will make timely reports to the campus community on certain crimes considered to be a threat to other students and employees, including forcible and nonforcible sex offenses that are reported to campus security or local law police agencies. These reports will be provided to students and employees in a timely manner, will withhold the name(s) of the victim(s) as confidential, and will aid in the prevention of similar occurrences.

F. In accordance with applicable law, the Student Title IX Coordinator retains the right to issue possible sanctions or engage in protective measures following a final determination of a University disciplinary procedure, including in all cases involving rape, acquaintance rape, domestic violence, dating violence, sexual assault, or stalking. The University reserves the right to issue any of the following sanctions in any order in these circumstances depending on the facts:
   - No-contact directive
   - Restriction of privileges
   - Probation
   - Written Warning
   - Suspension
   - Expulsion

VI. APPEALS:

If the Complainant or Respondent is dissatisfied with the determinations made under this policy, that person may file an appeal if one of the below grounds for appeal exists. The Appeal should be filed in writing with the Student Title IX Coordinator within 10 business days of being notified of the results of the investigation. The Appeal should set forth the grounds on which the Appeal is being filed and all of the facts and arguments in support of the Appeal. Absent good cause as determined by the Appeal Officer, a delay in filing the Appeal will be grounds for rejection of that Appeal. The Appeal will be forwarded to the Appeal Officer to review and make a final determination regarding the Appeal. Before an Appeal is determined, the Respondent may be given the opportunity to review the Appeal and, should he or she wish, to submit a written opposition to the Appeal within 10 business days. The Appeal Officer will strive to complete a determination regarding the appeal within 30 calendar days of receipt of the Appeal, or, when applicable, receipt of written opposition. The Appeal Officer will notify the Complainant and Respondent if the decision will take longer than 30 calendar days from the receipt of all documentation. Please Note: the appeal process is limited to students covered under this policy only. Faculty and staff should refer to their specific policy in the Employee Handbook.
The ONLY grounds for appeal are as follows:

- A procedural error occurred that significantly impacted the outcome of the investigation. A summary of the error and its potential impact must be included.
- To consider new evidence, unavailable during the original investigation, that could substantially impact the original finding or sanction. A summary of this new evidence and its potential impact must be included.
- The sanctions imposed are substantially disproportionate to the severity of the violation.

**Note:** Appeals are not intended to be full re-investigations of complaints. In most cases, appeals are confined to a review of the written documentation and the appeal notice.

The Appeal Officer will simultaneously notify the Appellant and Respondent of the decision in writing. The Appeal Officer's Appeal decision is final.

**VI. UNIVERSITY REPORTING OBLIGATIONS:**

Victims of sex discrimination should also be aware that, under the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act ("Clery Act"), University administrators must issue timely warnings to students and employees for certain types of incidents reported to them that pose a substantial threat of bodily harm or danger to members of the University community. The University will make every effort to ensure that a victim's name and other identifying information is not disclosed, while still providing enough information for community members to make safety decisions in light of the danger.

The University is required by federal law to report statistics regarding incidents of sexual violence. Annually, the University reports such statistics to students, faculty, and staff. Compliance with this Policy does not constitute a violation of section 444 of the General Education Provisions Act (20 U.S.C. § 1232g), commonly known as the Family Educational Rights and Privacy Act of 1974 (FERPA).

**VII. COOPERATION WITH LAW ENFORCEMENT**

The University will comply with law enforcement’s request for cooperation and such cooperation may require the University to temporarily suspend the fact-finding aspect of a Title IX investigation while the law enforcement agency gathers evidence. The University will promptly resume its Title IX investigation as soon as notified by the law enforcement agency that it has completed the evidence gathering process, which typically takes three to ten calendar days, although the delay in the University’s investigation could be longer in certain instances.

The University will implement appropriate interim steps during the law enforcement agency’s investigation period to provide for the safety of the victim(s) and the campus community and the avoidance of retaliation.

When appropriate or legally obligated, the University may share investigative information with the law enforcement.
VIII. ATTEMPTED VIOLATIONS

In most circumstances, the University will treat attempts to commit any of the violations listed in this policy as if those attempts had been completed.

IX. NO REPRISAL

There will be no retaliation against any complainant or reporter of sexual harassment, harassment, discrimination, or sexual violence under this policy, nor against any person who participates in an investigation. The University will investigate complaints and will take appropriate action against any student who retaliates against any person who makes a good-faith report; who testifies, assists or participates in an investigation; or who testifies, assists or participates in a process relating to the report. Retaliation includes, but is not limited to, any form of intimidation, reprisal or harassment.

In addition, neither the University, nor any officer, employee, or agent of the University may retaliate, intimidate, threaten, coerce, or otherwise discriminate against any individual for exercising their rights to avail themselves of the University’s grievance procedures.

X. CONFLICT OF INTEREST

If there is a conflict of interest with respect to any party affected by this policy, appropriate accommodations will be made, such as, but not limited to, appointing or contracting with a Consultant to conduct the investigation, or recusing the person from the process for whom a conflict or potential conflict of interest exists.

XI. ALTERNATIVE COMPLAINT PROCEDURES

These procedures do not deny the right of any individual to pursue other avenues of recourse which may include, but is not limited to, filing a charge with the United States Department of Education Office for Civil Rights (OCR).

The OCR office for Minnesota is located at:

U.S. Department of Education

XII. WAIVER OF DRUG/ALCOHOL VIOLATIONS

The University strongly encourages students to report instances of sexual harassment, sexual misconduct, dating or domestic violence or stalking. As such, students who report such
information—either witnesses or victims—will not be disciplined by the University for any violation of its drug and alcohol policies in which they might have engaged in connection with the reported incident. The use of alcohol or drugs does not make the victim at fault of sexual violence.

XIII. PROGRAMS DESIGNED TO PREVENT DOMESTIC VIOLENCE, DATING VIOLENCE, SEXUAL ASSAULT, AND STALKING

Pursuant to the Clery Act, the University has designed and implemented programs meant to prevent domestic violence, dating violence, sexual assault, and stalking. Notably, the University has created education programs to promote the awareness of rape, acquaintance rape, domestic violence, dating violence, sexual assault, and stalking. These education programs include primary prevention and awareness programs for all incoming students, faculty, adjunct faculty, and staff. In these programs, participants will

5. Learn the possible sanctions or protective measures that the University may impose following a final determination of a University disciplinary procedure regarding rape, acquaintance rape, domestic violence, dating violence, sexual assault, or stalking;
6. Be informed regarding the procedures victims should follow if a sex offense, domestic violence, dating violence, sexual assault, or stalking has occurred, including receiving information in writing about

   - To whom the alleged offense should be reported;
   - Options regarding law enforcement and campus authorities, including notification of the victim’s option to notify proper law enforcement authorities, including on-campus officials and local police; be assisted by campus authorities in notifying law enforcement authorities if the victim so chooses; and decline to notify such authorities;
7. Be notified that, when applicable, victims have rights and the University has responsibilities regarding orders of protection, no contact orders, restraining orders, or similar lawful orders issued by a criminal, civil, or tribal court;
8. Learn procedures for University disciplinary action in cases of alleged domestic violence, dating violence, sexual assault, or stalking, which shall include a clear statement that the proceedings will provide a prompt, fair, and impartial investigation and resolution; and will be conducted by officials who receive annual training on the issues related to these crimes and how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability;
9. Be notified of the fact that the Complainant and Respondent are entitled to the same opportunities to have others present during a University disciplinary proceeding, including the opportunity to be accompanied to any related meeting or proceeding by an advisor of their choice;

10. Be notified in writing that both the Complainant and Respondent shall be simultaneously informed, in writing, of – the outcome of any University disciplinary proceeding that arises from an allegation of domestic violence, dating violence, sexual assault, or stalking; the University's procedures for the accused and the victim to appeal the results of the University disciplinary proceeding when such results become final.

11. Obtain information about how the University will protect the confidentiality of Complainants to the extent required by the law, including how publicly available recordkeeping will be accomplished without the inclusion of identifying information about the Complainant, to the extent permissible by law;

12. Receive written notification about existing counseling, health, mental health, victim advocacy, legal assistance, and other services available for victims both on-campus and in the community; and

13. Receive written notification of Complainants’ options for, and available assistance in, changing academic situations, if so requested by the Complainant and if such accommodations are reasonably available, regardless of whether the Complainant chooses to report the crime to campus officials or local law enforcement.

14. TITLE IX, CAMPUS SaVE ACT, & Minn. Stat. § 135A.15 Policy for Employees
(Includes: Sexual Harassment, Harassment, Discrimination, & Sexual Violence)

POLICY

It is the policy of the Northwestern Health Sciences University (the “University”) to maintain a working environment that is free from sexual harassment\(^5\), sexual intimidation, sexual exploitation, harassment, discrimination or sexual violence, including when these crimes are based on actual or perceived race, color, creed, religion, national origin, sex, gender, ethnicity, gender identity, marital status, familial (or parental) status, disability, status with regard to public assistance, sexual orientation, age, family care leave status or veteran status or any other protected class defined by law. The University prohibits any form of harassment, violence or discrimination based on actual or perceived protected class status. In addition, the University prohibits dating violence, domestic violence, sexual assault, and stalking.

The University is committed to promptly and fairly investigating and addressing incidents of sexual misconduct. **Retaliation against a person who reports or complains about sexual misconduct, sexual harassment, harassment, discrimination, or sexual violence or who participates in or supports the investigation of a complaint is also prohibited and will not be tolerated.**

This policy applies to all of the academic and nonacademic (extracurricular) programs of the University and will be enforced on University property, owned or leased, including the University-hosted social functions, or events sponsored by the University but held at other locations. The policy also applies to conduct that occurs in certain circumstances as defined in this policy in a non-campus building or on non-campus property or on public property. The policy also applies to any off-campus conduct that causes or threatens to cause a substantial and material disruption at the University, or interferes with the rights of University employees to be free from a hostile working environment taking into consideration the totality of the circumstances on and off campus. That said, University employees are encouraged to report any instances of sexual misconduct to the University and if such report falls outside this particular policy, the University will assist the employee in reporting the incident to the proper party or authorities.

The University will also promptly and appropriately investigate all complaints of sexual harassment, harassment, discrimination, or sexual violence—whether formal or informal, verbal or written—based on a University employee’s actual or perceived protected class status, and will discipline or take appropriate action against any student, faculty, or staff that is found to have violated this policy. The University will investigate and, when appropriate, will conduct prompt, fair, and impartial investigation proceedings for complaints of all sexual misconduct, including but not limited to dating violence, sexual assault, and stalking.

If a University investigation reveals that harassment created a hostile environment, the University will take prompt and effective steps to end the harassment, eliminate the hostile environment, prevent the harassment from recurring and, when appropriate, remedy the effects of the hostile environment.

Any University employee who needs a reasonable accommodation to be able to make or respond to a complaint, or engage in any other activity detailed in this Policy, should contact the Employee Title IX Coordinator (the Vice President of Human Resources) to request an accommodation. Any employee of the University who is found to have violated this policy is subject to disciplinary or corrective action, up to and including termination of employment.

\(^5\) Title IX as well as other laws require that the University not discriminate on the basis of sex in the University’s employment practices, as well as in its education programs and activities. Inquiries regarding the application of Title IX—or reports of Title IX violations—should be made to the Employee Title IX Coordinator.

exploitation includes taking non-consensual video and/or audio recordings, photographs, or images of an
individual while that individual is engaged in intimate or sexual utterances, sounds, or activities; voyeurism;
or distributing intimate or sexual information about a person without his or her consent.

U. Sexual Harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or
physical conduct of a sexual nature when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of employment, or
2. Submission to or rejection of such conduct is used as a basis for employment decisions affecting the
   individual, or

under the circumstances to feel frightened, threatened, oppressed, persecuted, or intimidated, and causes
this reaction on the part of the victim regardless of the relationship between the actor and victim.

Y. Student Title IX Coordinator. The Student Title IX Coordinator is responsible for implementing and
monitoring Title IX compliance on behalf of the University. This includes coordination of training, education,

II. REPORTING PROCEDURES FOR INCIDENTS OF SEXUAL HARASSMENT, HARASSMENT, AND/OR
   DISCRIMINATION (please see Section III for reporting Sexual Violence)

A. If a University employee believes that he or she has been subject to sexual harassment, harassment, or
discrimination by any person whom the employee encounters during the course of his or her employment, he or she may report the conduct as set out below. In this circumstance, the employee also retains the right to decline to notify any authorities.

If a University employee observes sexual harassment, harassment, or discrimination, he or she must immediately report the conduct to the following:

Employee Title IX Coordinator ((952) 885-5437). If the University employee is reporting an incident relating to a student victim, he or she should also make a report to the Student Title IX Coordinator, (952) 888-4777 x 309.

If a University employee believes that he or she has been subject to sexual harassment, harassment, or discrimination by any person whom the employee encounters during the course of his or her employment, in addition to his or her right to make a report to the Employee Title IX Coordinator, he or she may also choose to make a report on the University’s Title IX Reporting Hotline. The University’s hotline is hosted by a secure, independent provider, EthicsPoint and reports are treated confidentially. Reporters may remain anonymous and reporters’ IP addresses cannot be traced. Reports will be provided to the Vice President of Human Resources. It should be understood that an investigation may be hampered or be impracticable if the Reporting Person cannot be identified and questioned about the incident and related facts. There are two ways to use the hotline:

- Online: https://secure.ethicspoint.com/domain/media/en/gui/35060/index.html
- Phone: toll-free, within the United States, Guam, Puerto Rico and Canada: 855-748-5772.

As necessary, the University reserves the right to initiate a complaint, to serve as complainant, and to initiate conduct proceedings without a formal complaint or, if necessary, consent, by the victim or complainant.

B. If a University employee believes that he or she has been a victim of a forcible or nonforcible sex offense, including dating violence, domestic violence, sexual assault, or stalking, on campus, and in certain circumstances as defined in this policy in or on non-campus buildings or property, or on public property, he or she should, if desired, report the incident to the University as outlined in section II. A. and/or local police agencies.

C. If a University employee believes that he or she has been a victim of the criminal offenses of larceny-theft, simple assault, intimidation, and destruction, damage, or vandalism of property, and/or any other crime involving bodily injury to any person, in which the victim believes he or she was selected because of his or her actual or perceived gender, sexual orientation, or gender identity, he or she should, if desired, report the incident to the University as outlined in section II. A. or local police agencies.

D. The willful filing of a false report will be considered to be a violation of University policy.

E. Although confidentiality cannot be assured, the University will respect the confidentiality of the complainant, the reporter (if someone other than the complainant), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the University’s obligations to investigate, to take appropriate action, to publish recordkeeping, and to comply with any legal obligations.

III. REPORTING PROCEDURES FOR INCIDENTS OF SEXUAL VIOLENCE

A. Reporting Complaints
1. We encourage victims of sexual violence to seek immediate medical and emotional assistance, including treatment for injuries and preventative treatment for sexually transmitted diseases. Assistance is available by calling 911, the Bloomington Police (952-563-4900), Campus Safety Officer extension 394. Medical treatment, including rape kits, may help victims preserve evidence of sexual violence and misconduct. University security staff responding to an incident of sexual violence will inform the victim of his or her options to notify law enforcement authorities, seek medical assistance, and the University’s reporting process; and security staff will assist the victim with these contacts if the victim requests such assistance.

   It is important for victims to preserve any evidence resulting from sexual violence that could be needed for criminal prosecution. Campus security will provide assistance in preserving materials considered relevant to the internal complaint process and, when requested by the police, provide assistance in obtaining, securing, and maintaining evidence needed for criminal prosecution.

   Victims of sexual assault have the right to complete and prompt assistance of campus authorities, at the direction of law enforcement authorities, in obtaining, securing, and maintaining evidence in connection with a sexual assault incident.

   The victim may report to the police, to the University, neither, or both. The University recognizes that the decision to report sexual violence to the police is the right of the victim. However, the University strongly encourages the immediate reporting of sexual violence to the following:

   Employee Title IX Coordinator: (952) 885-5437.

2. If a University employee reports to the University that the employee has been a victim of domestic violence, dating violence, sexual assault, or stalking, whether the offense occurred on or off campus, the University will provide the employee with a written explanation of the employee’s rights and options.

3. When applicable, the University will notify the victim of his or her rights and the University’s responsibilities regarding orders of protection, no contact orders, restraining orders, or similar lawful orders issued by a criminal, civil, or tribal court (see Resources Section below).

4. Although confidentiality cannot be assured, investigations will be conducted with sensitivity to confidential issues and investigative information will be communicated as appropriate to those with a need to know, pursuant to applicable law.

5. If the sexual violence reoccurs, it should immediately be reported to any of the individuals listed above. The Reporting Procedure described above should also be used if a University employee believes he or she has been subjected to prohibited retaliation or intimidation.

6. In some cases, unless prohibited by law, an individual may pursue criminal action and a University internal complaint concurrently. In certain circumstances, the University is prohibited from waiting for a criminal case to conclude before proceeding in its own internal investigation.

7. Pursuant to the law, the University will collect, prepare, publish, and distribute, through appropriate publications or mailings, to all current students and employees, and to any applicant for enrollment or employment upon request, an annual security report containing, among other things, information relating to the campus crime statistics of the University and statistics concerning the occurrence on campus, in or on noncampus buildings or property, and on public property all criminal offenses reported to campus security authorities related, among other things, to forcible or nonforcible sex offenses, dating violence, domestic violence, sexual assault, and stalking.

IV. INVESTIGATION

A. Upon receipt of a report or complaint, the University will notify and, when appropriate, obtain consent from the Complainant to promptly undertake or authorize a fair and impartial investigation. If the allegation is one of domestic violence, dating violence, sexual assault, or stalking, the investigation and disciplinary proceeding will be conducted by an official who receives annual training on the issues related to domestic violence, dating violence, sexual assault, and stalking. This training also includes information about interacting with victims of sexual assault, including how to reduce the emotional distress resulting from the reporting, investigatory, and disciplinary process. No matter the type of sexual misconduct reported, the investigation will be conducted by someone who has been trained on how to conduct a prompt, fair, and impartial investigation; how to provide safety to the victim; and how to promote accountability.

B. The investigation will generally be completed within 60 calendar days from receipt of the complaint. If the investigation proceeding will be delayed, the University will provide the participants with written notice of the delay and the reason for the delay.

C. The investigation may, as appropriate, consist of personal interviews with the complainant, the reporter (if someone other than the complainant), the individual(s) against whom the complaint is filed, and others who
may have knowledge of the alleged incident(s) or circumstances giving rise to the complaint. The investigation may also consist of any other methods and documents deemed pertinent by the investigator.

D. If the investigation is based on an allegation of domestic violence, dating violence, sexual assault, or stalking, the complainant and the respondent are each entitled to have others present during a University disciplinary proceeding, including to be accompanied to any related meeting or proceeding by an advisor of their choice. The advisor may not participate in the meeting, but may attend and observe.

E. In determining whether alleged conduct constitutes a violation of this policy, the University may consider the facts and surrounding circumstances, the nature of the behavior, past incidents or past or continuing patterns of behavior, the relationships between the parties involved, and the context in which the alleged incidents occurred. Whether a particular action or incident constitutes a violation of this policy requires a determination based on all the facts and surrounding circumstances using a preponderance of the evidence (i.e., more likely than not) standard to evaluate complaints. During the investigation, the University will never consider evidence about the complainant’s prior sexual conduct with anyone other than, when appropriate, the alleged perpetrator.

F. The University, at its discretion, may take immediate steps, based on the severity of the allegations, to protect the parties involved in the complaint process pending completion of an investigation.

G. To ensure the University can gather the information necessary to uphold University policies, each faculty, staff, or student who is requested to participate in a fact finding is required to fully cooperate with the investigator. Unless otherwise directed by the investigator, faculty, students, or staff will be expected to limit their discussion of the matter under investigation to those who need to know the information for the purposes of assisting in the resolution of the complaint. Nothing in this paragraph is intended to limit or restrict in any way a complainant from contacting at any time the police or governmental agencies responsible for the enforcement of any applicable laws.

H. The complainant and the respondent will be simultaneously notified in writing by the Employee Title IX Coordinator of any change to the results of the investigation that occurs prior to the time that the results become final.

V. UNIVERSITY ACTION

A. Upon completion of the investigation, the investigator(s) will make a finding of facts report to the Employee Title IX Coordinator. If the complaint involves the President, the report must be filed directly with the Board of Trustees.

B. The Employee Title IX Coordinator will evaluate the facts, make a determination if the facts violate the policy, and determine any sanction(s). The Employee Title IX Coordinator will simultaneously inform the complainant and respondent of the Results of the investigation and any sanction(s) that will be imposed. The Employee Title IX Coordinator will issue a report in writing and the sanctions, if any, will be detailed and the rational for the decision will be given, including in all cases of domestic violence, dating violence, sexual assault, or stalking.

C. If a complaint is substantiated, the University will take appropriate and effective action depending on the circumstances. Such action may include, but is not limited to, training, counseling, suspension, expulsion, termination, or other appropriate action.

D. In appropriate situations, the Employee Title IX Coordinator will provide written notifications to victims about options for, and available assistance in, changing academic situations, if so requested by the victim and if
such accommodations are reasonably available, regardless of whether the victim chooses to report the crime to University administration or local law enforcement.

E. Pursuant to applicable law, the University will make timely reports to the campus community on certain crimes considered to be a threat to other students and employees, including forcible and nonforcible sex offenses that are reported to campus security or local law police agencies. These reports will be provided to students and employees in a timely manner, will withhold the name(s) of the victim(s) as confidential, and will aid in the prevention of similar occurrences.

F. In accordance with applicable law, the Employee Title IX Coordinator retains the right to issue possible sanctions or engage in protective measures following a final determination of a University disciplinary procedure, including in all cases involving rape, acquaintance rape, domestic violence, dating violence, sexual assault, or stalking. The University reserves the right to issue any of the following sanctions in any order in these circumstances depending on the facts:
   - No-contact directive
   - Restriction of privileges
   - Probation
   - Written Warning
   - Suspension
   - Expulsion
   - Termination

VI. UNIVERSITY REPORTING OBLIGATIONS:

Victims of sex discrimination should also be aware that, under the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act ("Clery Act"), University administrators must issue timely warnings to students and employees for certain types of incidents reported to them that pose a substantial threat of bodily harm or danger to members of the University community. The University will make every effort to ensure that a victim's name and other identifying information is not disclosed, while still providing enough information for community members to make safety decisions in light of the danger.

The University is required by federal law to report statistics regarding incidents of sexual violence. Annually, the University reports such statistics to students, faculty, and staff. Compliance with this Policy does not constitute a violation of section 444 of the General Education Provisions Act (20 U.S.C. § 1232g), commonly known as the Family Educational Rights and Privacy Act of 1974 (FERPA).

VII. COOPERATION WITH LAW ENFORCEMENT

The University will comply with law enforcement’s request for cooperation and such cooperation may require the University to temporarily suspend the fact-finding aspect of a Title IX investigation while the law enforcement agency gathers evidence. The University will promptly resume its Title IX investigation as soon as notified by the law enforcement agency that it has completed the evidence gathering process, which typically takes three to ten calendar days, although the delay in the University's investigation could be longer in certain instances.

The University will implement appropriate interim steps during the law enforcement agency’s investigation period to provide for the safety of the victim(s) and the campus community and the avoidance of retaliation.

When appropriate or legally obligated, the University may share investigative information with the law enforcement.
VIII. ATTEMPTED VIOLATIONS

In most circumstances, the University will treat attempts to commit any of the violations listed in this policy as if those attempts had been completed.

IX. NO REPRISAL

There will be no retaliation against any complainant or reporter of sexual harassment, harassment, discrimination, or sexual violence under this policy, nor against any person who participates in an investigation. The University will investigate complaints and will take appropriate action against any University employee who retaliates against any person who makes a good-faith report; who testifies, assists or participates in an investigation; or who testifies, assists or participates in a process relating to the report. Retaliation includes, but is not limited to, any form of intimidation, reprisal or harassment. Appropriate action may include disciplinary or corrective action, up to and including termination.

In addition, neither the University, nor any officer, employee, or agent of the University may retaliate, intimidate, threaten, coerce, or otherwise discriminate against any individuals for exercising their rights to avail themselves of the University’s grievance procedures.

X. CONFLICT OF INTEREST

If there is a conflict of interest with respect to any party affected by this policy, appropriate accommodations will be made, such as, but not limited to, appointing or contracting with a Consultant to conduct the investigation, or recusing the person from the process for whom a conflict or potential conflict of interest exists.

XI. ALTERNATIVE COMPLAINT PROCEDURES

These procedures do not deny the right of any individual to pursue other avenues of recourse which may include, but is not limited to, filing a charge with the United States Department of Education Office for Civil Rights (OCR).

The OCR office for Minnesota is located at:

   o To whom the alleged offense should be reported;
   o Options regarding law enforcement and campus authorities, including notification of the victim's option to notify proper law enforcement authorities, including on-campus officials and local police; be assisted by campus authorities in notifying law enforcement authorities if the victim so chooses; and decline to notify such authorities;

8. Learn procedures for University disciplinary action in cases of alleged domestic violence, dating violence, sexual assault, or stalking, which shall include a clear statement that the proceedings will provide a prompt, fair, and impartial investigation and resolution; and will be conducted by officials who receive annual training on the issues related to these crimes and how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability;
9. Be notified of the fact that the Complainant and Respondent are entitled to the same opportunities to have others present during a University disciplinary proceeding, including the opportunity to be accompanied to any related meeting or proceeding by an advisor of their choice;
10. Be notified in writing that both the Complainant and Respondent shall be simultaneously informed, in writing, of – the outcome of any University disciplinary proceeding that arises from an allegation of domestic violence, dating violence, sexual assault, or stalking.
11. Obtain information about how the University will protect the confidentiality of Complainants to the extent required by the law, including how publicly available recordkeeping will be accomplished without the inclusion of identifying information about the Complainant, to the extent permissible by law;
12. Receive written notification about existing counseling, health, mental health, victim advocacy, legal assistance, and other services available for victims both on-campus and in the community; and
13. Receive written notification of Complainants’ options for, and available assistance in, changing academic situations, if so requested by the Complainant and if such accommodations are reasonably available, regardless of whether the Complainant chooses to report the crime to campus officials or local law enforcement.
14. The University will also offer ongoing prevention and awareness campaigns for students and faculty, adjunct faculty, and staff and will provide attendees with, at minimum, the same information listed above. These campaign programs will occur on a regular basis and no less frequently than once per year.

Drug Free Campus and Prevention Program

The collective vision at Northwestern Health Sciences University is to develop an environment that fosters exemplary, innovative and ethically based educational programs in natural health care. Drug and alcohol use and abuse can interfere with a student’s ability to pursue an education and the University’s ability to carry out its mission. Alcohol and drug abuse affect the health, safety and well-being of all students and staff.

In compliance with the Drug-Free Schools and Communities Act Amendments of 1989, Northwestern has implemented the following policies to prevent the illicit use of drugs and the abuse of alcohol by students and employees.

The unlawful manufacture, distribution, dispensation, possession, or use of any controlled substance or illegal drug is prohibited on campus, including all University premises where the activities of the University are conducted, while on University business or as part of any of the University’s programs or activities. In addition, the University also prohibits the unauthorized possession, use or distribution of alcohol on campus, while on University business or as part of any of the University’s programs or activities. At certain sanctioned University functions, alcoholic beverages may be allowed, but will be monitored.

Storing any unauthorized controlled substances, drug paraphernalia or alcohol in a locker, desk, University owned vehicle or other place on University owned or occupied premises is prohibited. It is the responsibility of employees and students to know and comply with this policy. To facilitate this, the campus alcohol and drug policy is clearly laid out and distributed to all students and employees as follows:

1. The University’s drug and alcohol policy is available in the Student Handbook and the Personnel Policy and Procedure Manual, which are made available to students and employees. Information on Northwestern’s drug and alcohol policies are distributed to all new and current students, staff and faculty through various University departments. At orientation sessions for new students, staff, and faculty, information about the University’s drug and alcohol policies are provided.

2. Each year, copies of this policy are sent to all students and employees via email. Those who violate this drug and alcohol use policy will be subject to disciplinary action up to and including dismissal. Employees and students who violate this policy may be referred for criminal prosecution. The use of controlled substances/illegal drugs or narcotics and the service of or selling of alcohol to those less
than 21 years of age is against the law. Many states will not grant license privileges to graduates convicted of a federal offense.

3. This alcohol and drug policy applies to all functions on the Northwestern Health Sciences University campus as well as all university-sponsored events off campus. This policy is subject to the jurisdiction of the University Cabinet. The University conducts a biennial review of this policy to determine the effectiveness of this policy and to ensure that disciplinary sanctions for violating student conduct are enforced consistently.

A full list of policies can be found in the Student Handbook.

For Your Information
This policy has been developed in compliance with the National Drug Control Strategy. This measure, issued in September 1989, proposed that Congress pass legislation requiring schools, colleges and universities to implement and enforce firm drug prevention and education programs as a condition of eligibility to receive federal financial assistance. On December 12, 1989, the President signed the Drug-Free School and Communities Act Amendments of 1989 which require that institutions of higher education implement a program to prevent the unlawful possession, use or distribution of illicit drugs and alcohol by its students and employees on school premises or as part of any of its activities.

Please refer to state and federal statutes for further sanctions related to drug and alcohol use. These statutes can be found at:
Drugs and Alcohol Health Risk

In compliance with the Drug Free Schools and Communities Act of 1989 (Public Law 101-226) the University has adopted a program to prevent the unlawful possession, use and distribution of illicit drugs and alcohol by members of the University community. In compliance with this requirement, information below describes the various health risks associated with alcohol abuse and the use of specific types of drugs. It is not intended to be an exhaustive or complete statement of all the possible health consequences of substance abuse. A copy of "A Matter of Facts: Information about alcohol and other drugs" is available in the Office of Student Affairs Office.

Alcohol Use and Abuse

Alcohol is the most widely used and abused drug in the United States. Alcohol acts as a central nervous system depressant. Alcohol intake causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident.

Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information. Very high doses cause respiratory depression and death.

If combined with other depressants of the central nervous system, much lower doses of alcohol can be fatal. Repeated use of alcohol can lead to dependence. In addition, research indicates that children of alcoholic parents are at a greater risk of developing alcohol dependency later in life.

Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs, such as the brain and liver.

Mothers who consume alcohol during pregnancy may give birth to infants with fetal alcohol spectrum disorders. Because every woman metabolizes alcohol differently, even the smallest amount of alcohol could harm a developing baby. Infants with fetal alcohol spectrum disorders have irreversible physical abnormalities and mental retardation. Alcohol can affect the baby during every trimester of pregnancy.

Drinking alcohol up to the 13th week of pregnancy can cause:

- severe brain damage
- problems with the heart, liver and kidneys
- miscarriage
- facial malformations

Drinking alcohol between weeks 14 and 26 can cause:

- brain damage
- miscarriage
- damaged muscles, skin, teeth, glands and bones
Drinking alcohol between weeks 27 and 40 can cause:

- brain and lung damage
- low birth weight
- early labor and delivery

**Amphetamines/Other stimulants**

Amphetamines (speed, uppers), methamphetamines and other stimulants can cause increased heart and respiratory rate, elevated blood pressure, dilated pupils and decreased appetite. In addition, users may experience sweating, headache, bad breath, blurred vision, dizziness, sleeplessness, and anxiety. Extremely high doses can cause a rapid or irregular heartbeat, tremors, loss of coordination, and even physical collapse. An amphetamine injection causes a sudden increase in blood pressure that can result in stroke, very high fever or heart failure.

In addition to the physical effects listed above, stimulant users report feeling restless, anxious and moody. People who use large amounts of amphetamines over a long period of time can develop an amphetamine psychosis that includes hallucinations, delusions and paranoia.

**Barbiturates/Other depressants**

Barbiturates (downers), methaqualone (Quaaludes), tranquilizers (valium and rohypnol) and other depressants have many of the same effects as alcohol. Small or prescribed doses can produce calmness and relaxed muscles, but larger doses can cause slurred speech, staggering and altered perception. Very large doses can cause respiratory depression, coma and death. The combination of depressants and alcohol can multiply the effects of the drugs, thereby multiplying the risks. Use can also cause liver damage, convulsions, and coma.

**Cannabis / Marijuana**

The physical effects of marijuana include a substantial increase in heart rate, bloodshot eyes, a dry mouth and throat, and increased appetite. It may impair short-term memory and comprehension, alter sense of time and reduce ability to perform tasks requiring concentration and coordination, such as driving a car. Research also shows that motivation and cognition may be altered, making the acquisition of new information difficult. When marijuana contains 2 percent THC, it can cause severe psychological damage, including paranoia and psychosis. Since the early 1980’s, most marijuana has contained from 4 to 6 percent THC - two or three times the amount capable of causing serious damage.

Because users often inhale the unfiltered smoke deeply and then hold it in their lungs as long as possible, marijuana is damaging to the lungs and pulmonary system. Marijuana smoke contains more cancer causing agents than tobacco smoke. Long-term users of marijuana may develop psychological dependence and require more of the drug to get the same effect.

**Cocaine / Crack**

Cocaine stimulates the central nervous system. Its immediate effects include dilated pupils and elevated blood pressure, increased heart and respiratory rate, and elevated body temperature. Injecting cocaine with contaminated equipment can cause AIDS, hepatitis and other diseases. Crack or freebase rock is a purified form of cocaine that is smoked. Smoking crack provides intensified cocaine effects because higher doses of the drug reach the brain very quickly. Crack is far more addictive than heroin or barbiturates. Continued use can produce violent behavior and psychotic states similar to schizophrenia.

Health risks include malnutrition, respiratory problems, addiction, stroke, liver problems, seizures, heart and respiratory failure, psychosis, coma, convulsions, and sexual dysfunction. Cocaine in any form, but particularly in the purified form known as crack, can cause sudden death from cardiac attack or respiratory failure.
Hallucinogens phencyclidine (PCP, angel dust), mescaline, peyote, LSD, and mushrooms interfere with the part of the brain that controls the intellect and keeps instincts in check. Hallucinogens are psychedelic, mind-altering drugs that affect a person's perceptions, feelings, thinking, and self-awareness. Use causes increased body temperature, heart rate and blood pressure, sweating, loss of appetite, sleeplessness, tremors, confusion, paranoia, and sometimes violence.

Because PCP blocks pain receptors, violent PCP episodes may result in self-inflicted injuries. Large doses may produce convulsions and coma, as well as heart and lung failure. Psychological reactions may include panic, confusion, suspicion, anxiety and loss of control. Delayed effects or flashbacks can occur even after use has ceased.

**Inhalants**

The immediate negative effects of inhalants (laughing gas, whippets) include nausea, sneezing, coughing, nosebleeds, fatigue, and lack of coordination and loss of appetite. Solvents and aerosol sprays also decrease heart and respiratory rates and impair judgment. Amyl and butyl nitrite cause rapid pulse, headaches and involuntary passing of urine and feces. Long-term use may result in hepatitis or brain damage. Deeply inhaling the vapors or using large amounts over a short period of time may result in disorientation, violent behavior, unconsciousness, or death. High concentrations of inhalants can cause suffocation by displacing the oxygen in the lungs or by depressing the central nervous system to the point that breathing stops.

**MDMA / Ecstasy**

MDMA is a stimulant with psychedelic properties. Short-term effects include feelings of mental stimulation, emotional warmth, enhanced sensory perception, and increased physical energy. Adverse health effects can include nausea, chills, sweating, teeth clenching, muscle cramping, and blurred vision. Chronic use of MDMA may lead to changes in brain function.

**Narcotics**

Narcotics such as opium, Demerol, heroin, codeine and morphine initially produce a feeling of euphoria that often is followed by drowsiness, nausea and vomiting. Users also may experience constricted pupils, watery eyes and itching. An overdose may produce slow and shallow breathing, clammy skin, convulsions, coma and possible death. Narcotics are extremely addictive.

Steroids may contribute to increases in body weight and muscular strength. Steroids are injected directly into the muscle or taken orally. Steroids are illegal to possess without a prescription from a licensed physician. They are prescribed for specific medical conditions. Possible signs of use/abuse: sudden increase in muscle and weight; increase in aggression and combativeness; violence; hallucinations; depression; jaundice; purple or red spots on body, inside mouth, or nose; swelling of feet or lower legs; tremors; and bad breath.
