Hands on Healing

The mission of Northwestern Health Sciences University is to advance and promote natural approaches to health through education, research, clinical services and community involvement.
A Note from Your President

As you take your first steps as a new natural health care practitioner in the months and years ahead, your focus will naturally be on decisions about the future. Building a practice, maybe moving to a new state, and raising a family will consume most of your waking moments as you pursue your dreams.

But one day, years or perhaps decades from today, you will leaf through these pages and reflect on the emotions and thoughts that characterized your years pursuing a degree or certificate as a natural health care practitioner at Northwestern Health Sciences University. It is then that the value of this yearbook will become truly apparent. A certain picture, maybe of you in technique class or of a classmate in the cafeteria, will transport you back years or decades to the very hallways of Northwestern. The sounds and sights of the past will reach out over the years and touch you.

At that moment, the value of your education at Northwestern will crystallize. In those years since you graduated, you will have treated thousands - maybe tens of thousands - of men, women, and children. For many of them, your care will have lifted them from pain and suffering. You will have validated your decision to become a natural health care practitioner.

I congratulate you on your hard work and dedication over the past years at Northwestern as you sought to realize your dreams. When I think back to 1963, the year I graduated as a Doctor of Chiropractic, I can recall how happy I was to be out of school and opening a new practice in Charlotte, Michigan. I lived for today and tomorrow. But now, nearly four decades later, I have time to reflect on my years pursuing a degree as a natural health care practitioner.

And what I realize is that my dreams have become reality, and I am blessed to be a member of one of the most wonderful careers in life - healing people Naturally.

Good luck in the years ahead.

Alfred D. Traina, D.C.
President, Northwestern Health Sciences University

College of Chiropractic

Mission Statement
The College of Chiropractic program provides a professional education comprised of the knowledge, skills and attributes necessary for one to practice chiropractic effectively, ethically and safely as a portal-of-entry, primary care chiropractic physician.

Explanation of Program: The Doctor of Chiropractic program is a progressional level, 10 trimester education that leads to the degree Doctor of Chiropractic (DC). Students entering the DC program must possess a minimum of 90 semester credits (three years) of undergraduate course work. Of this requirement, 60 credits are distributed in prerequisite course work in the sciences, humanities, and liberal arts.

History of the Program: Northwestern College of Chiropractic was founded June 2, 1942 by Dr. John B. Wolfe, D.C. The current enrollment of 600 students has outgrown three campuses, finally settling on our current campus in Bloomington. In 1984, Dr. Wolfe retired as president and Dr. Don Cassata was appointed as the second president and served until 1991. Northwestern's third president, Dr. John Allenburg, led Northwestern's transition from College to University and served as president until his retirement in 2001. Northwestern's fourth and current president, Dr. Alfred Traina is returning to Northwestern after holding the senior administrative position at LACC.

Northwestern College of Chiropractic has continually been on the forefront of chiropractic education. Northwestern was key in the development of the Council on Chiropractic Education (CCE). It pioneered the six year chiropractic academic program which became a requirement of all chiropractic programs by the CCE several years later. More recently Northwestern initiated the Community Based Internship Program (CBI) which has since been replicated by the majority of chiropractic colleges. Currently Northwestern continues to be a leader in quality, diverse clinical education with its integrative care clinic, Woodwinds Natural Care Center, located in a major metropolitan hospital.

Dean of the Program: Robert Scott has been the Dean of the College of Chiropractic since September 2002. A graduate of Northwestern in 1992, Dr. Scott brings a diverse educational and clinical background to the position. Dr. Scott has a Bachelor of Science in Human Kinetics, a Master of Science in Exercise Physiology, and a M.Ed. in Educational Administration. Currently, Dr. Scott is completing his Ph.D. at the University of Minnesota investigating the effects of chiropractic adjustments on vascular reactivity. Dr. Scott and his wife, Dr. Krista Boline, have owned five chiropractic clinics, including multidisciplinary clinics, and have practiced in both Canada and Minnesota. Prior to taking on the position of Dean, Dr. Scott has served as the Associate Chief of Staff of Clinics at Northwestern.

It has been a tremendous start to the new school year for the students and staff of Chiropractic Fall T4.
A note about ADINA CARDWELL:
A T-4 chiropractic student, Adina was diagnosed in June of 2003 with leukemia. She has persevered through the tests, radiation, and chemo-therapy with the love and support of friends, family, fellow students and faculty. Adina has been an inspiration throughout the trials. She is never seen without a smile or an encouraging word. Student organizations have exhibited a true community of caring by raising money for Adina and her husband through; a bake sale, chair massages, card sales, and a hamburger lunch sponsored by NWIHC, the Massage Therapy Program, Metro foods, Student Senate and NWHSU. Her fellow students in T-4 have become her personal cheering section. Our hats are off to Adina and we look forward to her return. Get Well Soon and God Bless.

"It was great to see part of the University's mission statement of "being a community of caring" fully implemented in the way students from all three programs, faculty & staff gave so very generously. It makes me so proud to be a part of this University!" -- Linnea Peterson, Chiropractic T-4

"With these fundraisers we collected more than $2500 - more than we'd ever expected! It is overwhelming to see how caring and generous people at NWHSU are!" -- Northwestern Women in Healthcare

"We were all shocked and worried when we found out Adina's diagnosis, but she has shown us what an incredibly strong person she is by remaining positive through all of this." -- Elizabeth St Louis, Chiropractic T-4

Joel will be remembered as:
* a passionate outdoorsman and mountain biker;
* a Ping-Pong competitor;
* an amazing hockey player and teammate;
* a well-liked classmate;
* an unforgettable friend.

We will always remember you, Joel.

Joel Demoskoff

"Fiercely loyal to family and friends, Joel's quiet confidence, subtle humor and gentle spirit made him a joy to be with. Always up for a challenge, excellence characterized Joel's life in everything he undertook."

"Joel was a great addition to the hockey team. His love for the game showed on and off the ice. Joel was a great friend and teammate. He will be deeply missed by his family, friends, and especially the NWHSU hockey team." - Jerod L. Ochsendorf, NWHSU Hockey Team

"Joel was a lot of fun to be around and he was a great teammate. He scored a goal during his last game helping us to win 4-1." - Jared Ottinger, NWHSU Hockey Team

University Health Services

University Health Services provides chiropractic care to families of NWHSU students, all T1 students, faculty and staff. The clinic opened in 2003 as an opportunity for trimester 7 chiropractic interns to further their skills with hands on clinical experience. UHS is a gateway for the interns before they advance to University Clinics or Clinical Based Internships in trimesters 8-10.

Dr. Julia Bartlett was named the clinics director and has made great strides in advancing the interns education and patients care.

CONSULTING RADIOLOGISTS, LTD.

Consulting Radiologists, Ltd., is a leading provider of subspecialty medical imaging services and minimally invasive therapeutics. CRL’s 60 board-certified diagnostic and interventional radiologists practice at Abbott Northwestern Hospital and provide imaging services at 30 locations in Minnesota and Wisconsin. For more information on our physicians and locations, visit www.consultingradiologists.com.

CONSULTING
ADJUSTMENT

Steve Fridinger, DC, DACBR and Consulting Radiologists, Ltd. have teamed up to give the chiropractic community exceptional personalized service at three convenient Twin Cities locations offering a wide range of imaging services.

To reach Dr. Fridinger, call 952-831-9300.
To schedule an imaging appointment, call our centers:

Edina Imaging Center 952-831-9300
MRI • CT • Diagnostic Injections and Pain Management Procedures

Consulting Radiologists Imaging Center – Plymouth 763-509-4700
MRI • CT • Diagnostic Injections and Pain Management Procedures • Diagnostic Ultrasound

Southdale Imaging Center 952-927-7017
X-ray • Diagnostic Ultrasound • DEXA Bone Densitometry
It Takes More Than A Good Diet To Achieve Good Health

An alarming trend has developed in the last two decades: people may not be adequately nourished by the *typical* American diet. After analyzing over 15,000 people, a University of Alabama, Birmingham study found that “84% of the subjects tested were consuming *suboptimal* diets with regard to one or more of the 17 nutrients evaluated.” As a healthcare professional, you will want to help your patients achieve optimum health through nutrition.

**NUTRITION DYNAMICS** distributes the finest food supplements in the industry, featuring all *Metagenics* products. We also feature our own unique formulas under the Nutrition Dynamics label. In addition, we offer products from 20 other high quality manufacturers such as Progressive Labs, DNA Labs, and UAS Labs. We are here to help you implement nutritional strategies by offering:

1. **Continuous and timely support** in implementing nutritional protocols for your patients.
2. **Medically accurate literature** designed to help you educate your patients.
3. **Scientific documentation and third-party assays** to assure product quality.
4. **Educational workshops** featuring experts in the field of clinical nutrition.
5. **Sales representatives** with over 30 years of experience in biochemistry and clinical application.
6. **Frequent Flyer Miles** for supplement purchases.

**Nutrition Dynamics** provides **Quality** over **Price**

**Price-Oriented Products**

- Ascorbic acid
- Synthetic vitamin E (dl-Tocopherols)
- Yogurt starter cultures posing as probiotics
- Calcium carbonate (Tums) for calcium
- Chromium picolinate
- Products often unproven
- Products often lack purity; contaminants a concern
- Limited therapeutic applications require much higher amounts of product causing concern for toxic levels of excipients

**Quality-Oriented Products**

- Ester C and Ultra Potent C (4 times more activity)
- Natural vitamin E and vitamin E w/selenium and tocotrienols (6-8 times more activity)
- Scientifically documented NCFM strain acidophilus and colostrum-like proven probiotics
- Proven bone building compound microcrystalline hydroxyapatite
- GTF chromium (nicotinate glycinate)
- Extensive studies confirming efficacy; assays proving quality
- Third-party assays prove purity and potency
- Documented therapeutic doses require less tablets with no toxicity

For more information call Greg Peterson or Carl Neubauer at (800)444-9998
Minnesota College of Acupuncture and Oriental Medicine (MCAOM)

Mission Statement

The purpose of the Minnesota College of Acupuncture and Oriental Medicine (MCAOM) at Northwestern Health Sciences University (NWHSU) is to offer professional, accredited Master degree programs in Acupuncture and Oriental Medicine, graduating practitioners who are committed to competent and compassionate patient care. In so doing, we support and promote the growth of Acupuncture and Oriental Medicine and their integration into the healthcare system of the U.S.

Mark S. McKenzie, L.Ac, Ms.O.M
Dean of MCAOM

Explanation of Program:  The Minnesota College of Acupuncture and Oriental Medicine is the largest and oldest school in the state of Minnesota offering master's ACAOM accredited degree programs. The curriculum for the Master of Oriental Medicine program provides almost 3,000 hours of didactic and clinical instruction in acupuncture, Chinese herbology, and related studies such as Tui Na, Qigong, introductory Chinese language skills and practice management. The program takes three years of fulltime enrollment to complete. The curriculum for the Master of Acupuncture program is similar to that of the Oriental Medicine program, but does not include herbal studies. This program includes about 2,300 hours of instruction, taking 2 2/3 years to complete. Both programs emphasize the unified understanding of the mind, body and spirit inherent in traditional Chinese medicine. MCAOM has gathered a multi-national faculty which is committed to academic and professional excellence and to teaching the extensive body of knowledge and skills necessary for safe and effective practice. Our graduates have the education and skills necessary to develop a successful practice based on their own personal style.

History of the Program: MCAOM, initially called the Minnesota Institute of Acupuncture and Herbal Studies (MIAHS), was founded in 1990 by Edith Davis, a practicing acupuncturist in the Twin Cities. MIAHS succeeded in graduating its first class and obtaining candidacy status for accreditation in 1994. The program continued to develop but Edith and the governing board realized that the school had to grow if it was going to achieve and exceed national educational standards for acupuncture schools. Concurrently, NWHSU was looking to expand its professional program offerings, so negotiations began between the two entities. In 1999, MIAHS received accreditation and moved in to the NWHSU campus. In early 2001, MIAHS officially merged with NWHSU and became the Minnesota College of Acupuncture and Oriental Medicine.

Dean of the Program:  Mark S. McKenzie, L.Ac.,Ms.O.M Dipl. Ac., CH, NCTMB, has been Dean of MCAOM since September, 2003. Mark provides MCAOM with a unique combination of business skills, direct management experience and licensure as an acupuncturist and Chinese herbologist. He has been an acupuncturist in the Twin Cities since 1999, graduating from MIAHS in 1999 and then obtaining a Master's degree in Oriental Medicine from MCAOM in 2002. For two years prior to accepting his current position, Mark worked part-time as an acupuncture practitioner and clinic supervisor in the Edith Davis Teaching Clinic on the NWHSU Bloomington campus. Mark currently serves as the president of the Acupuncture and Oriental Medicine Association of Minnesota (ACAOM). He is a nationally certified massage therapist (NCTMB) and holds a Bachelor's degree in biology and computer science and currently services.

LifeScan Stand Up MRI presents the latest breakthrough in medical imaging services to the Twin Cities. Stand Up MRI gives Doctors the ability to see high quality images of patients standing, sitting, full flexion or extension and recumbent. The open design allows even the most claustrophobic patients relief from anxiety associated with MRI.

LifeScan Stand Up MRI is a state-of-the-art, stand alone imaging center providing doctors with:

- The Most Open MRI Available
- High-Quality Images
- Positional pMRI
- 450lbs. Weight Capacity
- 24hr. Turnaround

Studies are read by Northwestern Health Science University's Dr. Tim Mick and include an MD over-read.
When looking for reconditioned equipment, you want to:

- Save BIG money.
- Get dependable equipment that has been thoroughly refurbished and is guaranteed.
- Have a selection large enough to ensure you get exactly the brand and model you want.

- Make sure it is reconditioned by the company you buy it from, not a job shop.
- To make sure the company you buy it from has the knowledge, training, and experience to take care of any problems after the sale.

**HESSCO OFFERS YOU:**

- Lowest prices on reconditioned tables in the world!
- The only company that completely reconditions its used tables.
- Over 500 tables to choose from.
- Over 500 tables to choose from.
- All Hessco reconditioned tables from Hessco are rebuilt by our factory trained techs. We are responsible for the quality and performance, no excuses.

Hessco has over 25 factory trained employees who are able to keep your equipment running after the sale. Our service techs average over 15 years of experience with Chiropractic equipment.

Hessco’s sales reps also average over 15 years experience. This allows them to help you find the equipment that is right for your practice.

**Call the sales professional nearest you!**
Mission Statement
The mission of the School of Massage Therapy is to provide quality education and clinical development in the field of massage therapy.

Explanation of the Program: The program is 780 hours in length and takes one year (three trimesters) to complete. Applicants must be at least 18 years of age at the time of admission, have earned a high school diploma, its foreign equivalent, or a GED, and have demonstrated sufficient maturity to undertake a health care profession, including the capacity to ethically and responsibly manage professional boundaries. The program is very clinically focused. There is a strong emphasis on anatomy, particularly muscle locations and attachments. Students are guided through a traditional relaxation massage in their first trimester and onto a more clinical focused, trigger point therapy massage in their second and third trimesters. There is also a strong focus on the business of massage as it relates to communication, ethics, professionalism, boundaries, marketing and practice building.

History of the Program: The school opened its doors to its first class in the fall of 2000. It began as a evening program. The school has since graduated eight classes in seven commencement exercises (the last evening class had a combined graduation ceremony with one of the day groups). Two classes have been evening classes and six have been day classes. There were many involved in creating the massage therapy program, including members of the current faculty.

Dean of the Program: Dr. Dale Healey graduated from Parker College of Chiropractic in 1996 with a bachelor's degree in anatomy and a Doctor of Chiropractic degree. He joined NWHSU as the Dean of the School of Massage Therapy in September of 2002. He spent the five years previous to joining NWHSU at Myotherapy College of Utah, a massage therapy school in Salt Lake City, Utah, where he was the Education Director and an instructor. Dr. Healey enjoys being involved in education and finds dealing with students exciting and energizing.

The clinic was established September 15, 2003 for Massage Therapy. Dale Healey, DC, dean of the school of massage therapy at Northwestern, is excited about the move, "I think it's a fantastic opportunity for us. The advantages include a sense of ownership, dedicated space, and complete flexibility to create our own schedules." Previously, the massage clinic was sharing space with the chiropractic student interns in the DeRusha Center (UHS).

At Center for Diagnostic Imaging, each of our physicians chooses to focus their radiology practice on certain areas of the body. These subspecialties include spine, pain management, neurological, musculoskeletal, body and cardiovascular.

CDI's radiologists have a tremendous depth and breadth of experience, and are known nationally for their expertise, the kind of knowledge you can rely on for an accurate diagnosis and treatment planning.

What's more, at CDI we combine our physicians' skill with advanced technology and our team's compassionate care.

Call 952.541.1840 for more information, and thank you for choosing CDI.

Mission Statement

The University Student Senate seeks to represent each student from every program, acting as a liaison between student and faculty and administrators. The Senate also allocates funds to each of the many student clubs and organizations across campus. In addition to this, different subcommittees within Senate organize volunteer projects, athletic tournaments, MASH notes, bagels for boards, the party each term, various seminars for each program, tickets to offsite events, and keep our campus looking good.
Student American Chiropractic Association (SACA)

Officers:
President: Kayla Kieser
Vice President: Kenzie Satter
Legislative Rep.: Brad Woodle
Treasurer: Lewis Pagel
Secretary: Jenny Kline
Fundraising: Kari Bennett and Evan Frisk
Community Service: Jake Sundberg
Brown Bag: Jody Shawn
Web Designer: Nick Rapp
National Leg. Chair: David Haas
National Vice Leg. Chair: Brianne Hanson
ACA Liaison: Dr. Howard Fidler
Faculty Advisors: Dr.s Michelle Maiers and Jonathan Williams

Mission Statement
The Student American Chiropractic Association is a professional organization representing future and present Doctors of Chiropractic. Our mission is to preserve, protect, improve and promote the chiropractic profession and the services of Doctors of Chiropractic for the benefit of the patients they serve. The purpose of the ACA and SACA is to provide leadership in health care and a positive vision for the chiropractic profession and its natural approach to health and wellness.

Events and Activities:
* SACA Day
* Dunk Tank at Summer Jam
* Bake Sales
* Concessions at the Target Center, X-Cel Energy Center and the Metrodome
* Valet Parking at Homecoming
* Silent Auction
* Community Service (YMCA, Lupus Walk, S.O.S)
* Weekly Speakers
* Volunteered at the Presidential Golf Tournament at Hazeltine
* National Chiropractic Legislative Conference
* House of Delegates Meeting
* Letter Writing Campaigns
* Help with Graduation
Officers:
President: John Gallagher
Vice President: Tammy Walz
Secretary: Brooke Fister
Worship Directors: Tim Gunderson and Jeff Pearson
Events Coordinator: Wally Schmitt and Faith Schumann
Advertisement and Design Coordinator: Brooks Rohman
Publication/Student Affairs: Nate Pochucha and Joel Fugelberg

Events and Activities:
Evening Meetings every Third Week
Old Spaghetti Dinner and Ice Skating
Ski Trip
Bake Sale Fundraiser
Yoga

Officers:
President: Lisa Fredrick
Faculty Advisor: Kathy Allen
Instructor: David Magnuson

Yoga means union. The yoga club represents a whole body approach to health and exercise. David Magnuson instructs primarily Lyengar Yoga. Emphasis is placed on stretching, strengthening, and restoring overall health.

Our goal is to offer a class that offers benefits to people at many different levels. Yoga will release stress and help manage physical illness, while offering relaxation and meditation.

Class is held Thursday in the Cafeteria Conference Rm from 5-6pm. Mats are provided.
Massage Therapy Club

Officers:
President: Jeanie Siem
Vice President: Rita Ann Grossman
Secretary: Justine Zerwas
Treasurer: Nancy Kalina

The Massage Therapy Club provides an opportunity for students to get to know one another, to network with other natural health care practitioners and to learn more about working in the field of Massage Therapy. It is also an opportunity for students to promote their trade throughout the Twin Cities at community events.

Special Events and Activities:
Meetings are every other Tuesday
Job Fair
Speakers BJ Smith and Eileen Gubash

Northwestern Women in Healthcare

Officers:
President: Susan Raye Thompson
Committee Members: Jodie Skaufel, Chantel Serach, Judy Swain

Mission Statement
Northwestern Women In Healthcare serves to provide awareness, opportunities and support to students of NWHSU. We expand our horizons through special exhibits, seminars, and guest speakers.

Events and Activities:
Book Sale - Used and New
Guest Speakers
Fundraiser for Adina Cardwell
Swing Dance Class
Scrapbooking for Historical Presentation
Acupuncture and Oriental Medicine Student Organization of the Midwest (AOMSOM)

Officers:
President: Amy Moll
Vice President: Rebeka Ndosi
Secretary: Leah Olson
Treasurer: Sarah Larson

Mission Statement
To enrich the field of Acupuncture and Oriental medicine by providing students with opportunities to actively participate in its professional advancement and protect its integrity. In addition, the AOMSOM seeks to establish lines of communication and create a forum for discussion between schools in the Midwest region and beyond.
Canadian Club

Officers:
President: Dan Findlay and Jeffrey Algujer
Vice President: Liz McGown
Faculty Advisor: Dr. Rob Scott

The Canadian Club offers those students from Canada attending NWHSU a support group away from home, a basis for the sharing of information, and the opportunity to address questions specific to undertaking the Canadian Board Examinations (written and practical). The group also addresses questions pertaining to practicing in both Canada and the United States. To the student and faculty bodies of NWHSU, the Canadian Club is host each trimester to the Wine and Cheese Social, an event bringing together all schools and programs for good conversation, good food, good wine, and yes, a good time!

Members are listed according to Province:

Alberta
Jeffrey Algujer
Landon Boyko
Aaron Dingman
Daniel Findlay
Heather Pritchard
Dustie Steeves

Manitoba
David Bourgouin
Daniel Buettner

Office

President
Vice President
Faculty Advisor

The Canadian Club, with the report of the membership committee, is hereby

72 Canadian Club
Activator Methods Chiropractic Technique Club

**Officers:**
- President: Liz McGown
- Vice Presidents: Brian Benjamin, Christy Fetzer, Brian Hanks
- Faculty Advisor: Dr. Paul Osterbauer

The Activator Methods Chiropractic Technique (AMCT) Club has been resurrected at NWHSU! The reestablished AMCT Club held its first meeting early in the 2004 winter trimester. Under the tutelage of our Faculty Advisor, twenty-three students enthusiastically practiced their 'six-point landing' and the two positions for leg assessment.

Philosophy Club

**Officers:**
- President: Ben Rall

The Philosophy Club at Northwestern is trying to help spread the understanding and value of our philosophy to the students. There has been a resurgence of philosophy thanks to our Dean, Dr. Scott, and we as a student organization hope to help perpetrate that.

**Events and Activities:**
- Trip to Palmer Lyceum 8/15/03
- "Philosophy Nights" Dr.s Sinnott, Poock, Erickson, Headler, Lyons, and Tim Fueling
- Dr. Doral Robb - 81 yr old Dr From Madison, WI
Student Ambassador Club

Presidents: Jennifer McClurkin and Bobbie Bennett

The Student Ambassador Club is an organization to help ease the transition into student life at Northwestern as well as provide a unique perspective of student life to prospective students. We help promote the feeling of community on campus within the chiropractic profession as well as the oriental medicine and massage professions, helping build ties between our peers.

Events and Activities:
- Ice Cream Social
- E-mail events
- Preparatory Days
- Career Days
- Orientation and Moral Support Night
- Call and Chat events
- Group Fun Night
The Gonstead Technique Club is dedicated to the teachings and practice of Dr. C.S. Gonstead's original work. The Gonstead System utilizes an intricate means of analysis in the detection of the vertebral subluxation, and furthers chiropractic's foundational cause through a specific approach to its correction. Above all, it allows the student/practitioner to ascertain certainty in their work.
ON PURPOSE

Officers:
Ben Neufeld

Dr. James Amundson

Mission Statement
To provide information, inspiration, and motivation to the student body about all things chiropractic, including the science, politics, and philosophy of chiropractic, while putting emphasis on health and wellness.

To stimulate and encourage students to think critically about issues that face the chiropractic profession today; to provide a variety of practice management ideas, and to inspire students to become the best chiropractors possible!

The club receives the On Purpose audio series, which is a monthly 3-CD set hosted by Drs. Gentempo and Kent that engages some of the greatest minds in chiropractic as they explore the topics of Science, Politics and Philosophy. Since 1994, subscribers (including students) worldwide have attributed On Purpose as their sole means for keeping them abreast of vital developments, events and issues within the chiropractic profession. This series normally costs $359.80 for a yearly student subscription, but every month the club checks in the new On Purpose set to the school library for all students and faculty to enjoy FREE!! For more information about the On Purpose audio series of CLA, the company that produces it, go to www.subluxation.com.

Besides providing the On Purpose audio series to the students and staff of Northwestern, we also bring in various speakers throughout the year to speak on any and all topics of chiropractic. Historically, speakers have focused on practice management and chiropractic philosophy, but there are always exceptions to the rule! A few of the notable speakers we have brought in include:

- Dr. Patrick Gentempo
- Dr. John Demartini
- Timothy Feuling

Northwestern Health Sciences University Alumni...

Have You Consolidated Your Student Loans Yet?

Lock into the lowest interest rates ever AND reduce your principal balance by 3.0%!

By consolidating your federal student loans, you can extend your repayment period by up to 30 years, lock into a low interest rate until your loan is paid in full, and reduce your monthly payments by 50%!

By working with the HPCC, you can immediately reduce the principal amount on your consolidation loan balance by 3.0% as long as your monthly payments are never 15 days or more late.

Grace Period 2.88%*
If you consolidate your loans during your six-month grace period, the interest rate is based on the 91-Day T-Bill + 1.7%.

Repayment Period 3.50%*
If you consolidate your loans after entering the repayment period, the interest rate is based on the 91-Day T-Bill + 2.3%.

Call an HPCC counselor at (800) 243-7414 to help determine if loan consolidation is right for you.

www.healthypayment.com

*Rates in effect July 1, 2003-June 30, 2004. Stafford loans borrowed prior to October 1, 1998 may have different interest rates. Consolidation changes your interest rate from a variable rate to a fixed rate.

Homecoming and Winter Gathering

February 5-7, 2004

Northwestern College of Chiropractic's annual Homecoming was a definite success. Over 1,400 doctors, students and staff attended the event. Dr. David Mjoen was honored as the Alumnus of the Year, and scholarships were awarded to 24 chiropractic students.
February 28-29, 2004

"The First Annual Winter Symposium was a brand-new opportunity for massage therapists to meet other professionals, explore the latest in products and earn valuable education credits."

(Bulletin Vol.4 No.1)
The annual Great River Symposium & Spring Gathering was a great success as 150 practitioners, students and faculty attended the event. For the first time, Northwestern presented the Alumnus of the Year award, recognizing Chris Hafner, LAC, DiplAc, for his outstanding leadership and integrity.
