Northwestern Health Sciences University is devoted to the pursuit of excellence of education in the areas of acupuncture, massage therapy, chiropractic, and oriental medicine. The pages of this book show the journey and transition from our awkward first steps through the doors of Northwestern to our confident strides across the stage at our graduations. As we come together to become natural health care practitioners, we not only gain the knowledge and ability to be at the forefront of health care, we also build lasting relationships in both our personal and professional lives. As we look to the future, we take with us the experiences and memories of our times together at Northwestern.
As you take your first steps as a new natural health care practitioner in the months and years ahead, your focus will naturally be on decisions about the future. Building a practice, maybe moving to a new state, and raising a family will consume most of your waking moments as you pursue your dreams.

But one day - years, perhaps decades from today - you will leaf through these pages and reflect on the emotions and thoughts that characterized your years pursuing a degree or certificate at Northwestern Health Sciences University. It is then that the value of this yearbook will become truly apparent. A certain picture, maybe of you in technique class or of a classmate in the cafeteria, will transport you back years or decades to the hallways of Northwestern. The sounds and sights of the past will reach out over the years and touch you.

At that moment, the value of your education at Northwestern will crystallize. In those years since you graduated, you will have treated thousands - maybe tens of thousands of men, women, and children. For many of them, your care will have lifted them from pain and suffering. You will have validated your decision to become a natural health care practitioner.

I congratulate you on your hard work and dedication over the past years at Northwestern as you sought to realize your dreams. When I think back to 1963, the year I graduated as a Doctor of Chiropractic, I can recall how happy I was to be out of school and opening a new practice in Charlotte, Michigan. I lived for today and tomorrow. But now, more than four decades later, I have time to reflect on my years pursuing a degree as a natural health care practitioner.

And what I realize is that my dreams have become reality, and I am blessed to be a member of one of the most wonderful careers in life - healing people Naturally.

Good luck in the years ahead.

Alfred D. Traina, D.C.
President, Northwestern Health Sciences University
The doctor of the future will give no medicine, but will interest his patients in the care of the human frame, in diet, and in the cause and prevention of disease.

College of Chiropractic

Statement of Purpose
The College of Chiropractic provides a professional education comprised of the knowledge, skills and attributes necessary for one to practice effectively, ethically and safely as a portal-of-entry, primary care physician.

Explanation of Program: The Doctor of Chiropractic program is a professional level, 10 trimester education that leads to the degree Doctor of Chiropractic (DC). Students entering the DC program must possess a minimum of 90 semester credits (three years) of undergraduate course work. Of this requirement, 60 credits are distributed in prerequisite course work in the sciences, humanities, and liberal arts.

History of the Program: Northwestern College of Chiropractic was founded June 2, 1942 by Dr. John B. Wolfe, D.C. The current enrollment of 600 students has outgrown three campuses, finally settling on our current campus in Bloomington. In 1984, Dr. Wolfe retired as president and Dr. Don Cassata was appointed as the second president and served until 1991. Northwestern's third president, Dr. John Allenburg, led Northwestern's transition from College to University and served as president until his retirement in 2001. Northwestern's fourth and current president, Dr. Alfred Traina is returning to Northwestern after holding the senior administrative position at LACC.

Northwestern College of Chiropractic has continually been on the forefront of chiropractic education. Northwestern was key in the development of the Council on Chiropractic Education (CCE). It pioneered the six-year chiropractic academic program which became a requirement of all chiropractic programs by the CCE several years later. More recently Northwestern initiated the Community Based Internship Program (CBI) which has since been replicated by the majority of chiropractic colleges. Currently, Northwestern continues to be a leader in quality, diverse clinical education with its integrative care clinic, Woodwinds Natural Care Center, located in a major metropolitan hospital.

Associate Dean of the Program: Kurt Wood has been the Chair, and now the Associate Dean of the College of Chiropractic since 2002. He is a 1976 graduate of Upper Iowa University graduating with Bachelor of Science degrees in biology and chemistry, and a 1979 graduate of Palmer College of Chiropractic-Davenport. Dr. Wood's professional experience includes the operation of a rural, multi-doctor family practice in western Wisconsin, and a long-time forensic practice. On faculty since 1987, Dr. Wood has served as the Principles & Methods Department Chair and as the Director of the Bloomington Campus Clinic.

"Recognizing the growing importance of clinical research, the college established the Wolfe-Harris Center for Clinical Studies as the research division of the institution. A new facility was opened in the spring of 1991 providing office space for research faculty and staff."

--Charles Sawyer
University Health Services provides chiropractic care to families of NWHSU students, all T1 students, faculty and staff. The clinic opened in 2003 as an opportunity for trimester 7 chiropractic interns to further their skills with hands on clinical experience. UHS is a gateway for the interns before they advance to University Clinics or Clinical Based Internships in trimesters 8-10.

Dr. Julie Bartlett was named the clinics director and has made great strides in advancing the interns education and patients care.

Do you remember when you decided to become a Doctor of Chiropractic? Most likely it involved a passion to help others live healthier, fuller lives.

We understand the importance of a healthy, satisfied patient. That’s why we use over 50 years of scientific research and the most advanced technology when designing every pair of custom-made Spinal Pelvic Stabilizers.

After all, we don’t just balance the feet, but the entire body. And we don’t just help doctors and patients; we help build futures.

See how one step can change your future.

FREE Stabilizers for Students!
Foot Levelers’ Stabilizers are now available in your student clinic. All chiropractic students and college employees are eligible for one FREE pair of Foot Levelers’ Stabilizers – if clinically indicated. Bring this certificate to your clinic staff doctor for an evaluation to receive your FREE pair.

For more information, contact us at:
1-800-553-4860 (US) • 1-800-344-4860 (Canada)
1800 800 963 (Australia) • www.footlevelers.com
We have always recognized the advantages of postural x-rays on our patients. Now, we are seeing the benefits of postural MRI, with its greater sensitivity than plain films for so many abnormalities. For musculoskeletal lesions typically having a dynamic component, we have also observed clear advantages of postural MRI over conventional recumbent MRI.

— Dr. Tim McK
Northwestern Health Sciences University

LifeScan Stand-Up MRI presents the latest breakthrough in medical imaging services to the Twin Cities. LifeScan Stand-Up MRI gives doctors the ability to see high-quality images of patients in their natural posture standing or sitting. The Stand-Up MRI also allows doctors to see patients in positions of acute pain in flexion or extension.

• Accredited by the American College of Radiology
• Weight-bearing and positional pMRI
• Chiropractic report reviewed and signed off by MD
• High-Quality Images
• 500lb. Weight Capacity
• 24hr. Turnaround

Minnesota College of Acupuncture and Oriental Medicine (MCAOM)

Mission Statement
The purpose of the Minnesota College of Acupuncture and Oriental Medicine (MCAOM) at Northwestern Health Sciences University (NWHSU) is to offer professional, accredited Master degree programs in Acupuncture and Oriental Medicine, graduating practitioners who are committed to competent and compassionate patient care. In so doing, we support and promote the growth of Acupuncture and oriental Medicine and their integration into the healthcare system of the U.S.

Mark S. McKenzie, L.Ac., Ms.O.M.
Dean of MCAOM

Explanation of Program: The Minnesota College of Acupuncture and Oriental Medicine is the largest and oldest school in the state of Minnesota offering master's ACAOM accredited degree programs. The curriculum for the Master of Oriental Medicine program provides almost 3,000 hours of didactic and clinical instruction in acupuncture, Chinese herbology, and related studies such and Tui Na, Qigong, introductory Chinese language skills and practice management. The program takes three years of fulltime enrollment to complete. The curriculum for the Master of Acupuncture program is similar to that of the Oriental Medicine program, but does not include herbal studies. This program includes about 2,300 hours of instruction, taking 2 2/3 years to complete. Both programs emphasize the unified understanding of the mind, body and spirit inherent in traditional Chinese medicine. MCAOM has gathered a multi-national faculty which is committed to academic and professional excellence and to teaching the extensive body of knowledge and skills necessary for safe and effective practice. Our graduates have the education and skills necessary to develop a successful practice based on their own personal style.

History of the Program: MCAOM, initially called the Minnesota Institute of Acupuncture and Herbal Studies (MIAHS), was founded in 1990 by Edith Davis, a practicing acupuncturist in the Twin Cities. MIAHS succeeded in graduating its first class and obtaining candidacy status for accreditation in 1994. Then program continued to develop bet Edith and the governing board realized that the school had to grow if it was going to achieve and exceed national educational standards for acupuncture schools. Concurrently, NWHSU was looking to expand its professional program offerings, so negotiations began between the two entities. In 1999, MIAHS received accreditation and moved in to the NWHSU campus. In early 2001, MIAHS officially merged with NWHSU and became the Minnesota College of Acupuncture and Oriental Medicine.

Dean of the Program: Mark S. McKenzie, L.Ac., M.Om Dipl. OM NCTMB, has been Dean of MCAOM since September, 2002. Mark provides MCAOM with a unique combination of business skills, direct management experience and licensure as an acupuncturist and Chinese herbologist. He has been an acupuncturist in the Twin Cities since 1999, graduating from MIAHS in 1999 and then obtaining a Master's degree in Oriental Medicine from MCAOM in 2002. For two years prior to accepting his current position, Mark worked part-time as an acupuncture practitioner and clinic supervisor in the Edith Davis Teaching Clinic on the NWHSU Bloomington campus. Mark currently serves as the president of the Acupuncture and Oriental Medicine Association of Minnesota (ACAOM). He is a nationally certified massage therapist (NCTMB) and holds a bachelor's degree in biology and is on the executive committee of the Council of Colleges of Acupuncture and Oriental Medicine.

"Most people do not consume an optimal amount of all vitamins by diet alone. Pending strong evidence of effectiveness from randomized trials, it appears prudent for all adults to take vitamin supplements." JAMA. 2002;287:3127-3129.

As a healthcare professional, you will want to help your patients achieve optimum health through nutrition.

We are here to help you implement nutritional strategies by offering:

- Continuous and timely support in implementing nutritional protocols for your patients.
- Medically accurate literature designed to help you educate your patients.
- Scientific documentation and third-party assays to assure product quality.
- Educational workshops featuring experts in the field of clinical nutrition.
- Sales representatives with over 30 years of experience.

Nutrition Dynamics distributes the finest food supplements in the industry, featuring all Metagenics products. We also feature our own unique formulas under the Nutrition Dynamics label. In addition, we offer products from 20 other high quality manufacturers such as Progressive Labs, DNA Labs, and Montiff.

Candids
Candids
11 of Them WILL ALREADY THINK You’re Guilty

IT’S A FACT:
Only 8% of Americans seek chiropractic care. That means when you find yourself in court facing a jury of your “peers,” 11 out of 12 of those jury members have never been to a D.C. … probably don’t understand chiropractic … and some may even have a bias against you before you tell your side of the story.

That’s why it’s important to have NCMIC — the chiropractic malpractice experts — on your side. NCMIC knows what it takes to increase your chances of a “Not Guilty” verdict:
► Experienced claims staff focused on chiropractic
► An arsenal of advanced defense tools to explain your side of the story
► Attorneys specially trained in chiropractic malpractice defense
► Nearly 60 years’ experience in chiropractic malpractice protection

More than 56,000 of your colleagues rely on NCMIC to help increase their chances of a “Not Guilty” verdict. Get your NCMIC rate quote and free information kit today!

Call TOLL FREE 1-800-769-2000, ext. 6088.

YES! Want more information on the best chiropractic malpractice protection a D.C. can get. Send me a FREE information kit and rate quote.

Vitamin K supplementation has been shown to have a positive impact on bone density and calcium loss. One study demonstrated a reduction in calcium loss by up to 50% in osteoporotic individuals.
School of Massage Therapy

Mission Statement
The mission of the School of Massage Therapy is to provide quality education and clinical development in the field of massage therapy.

Explanation of the Program: The program is 780 hours in length and takes one year (three trimesters) to complete. Applicants must be at least 18 years of age at the time of admission, have earned a high school diploma, its foreign equivalent, or a GED, and have demonstrated sufficient maturity to undertake a health care profession, including the capacity to ethically and responsibly manage professional boundaries. The program is very clinically focused. There is a strong emphasis on anatomy, particularly muscle locations and attachments. Students are guided through a traditional relaxation massage in their first trimester and onto a more clinical focused, trigger point therapy massage in their second and third trimesters. There is also, a strong focus on the business of massage as it relates to communication, ethics, professionalism, boundaries, marketing and practice building.

History of the Program: The school opened its doors to its first class in the fall of 2000. It began as an evening program. The school has since graduated eleven classes. Two classes have been evening classes and nine have been day classes. There were many involved in creating the massage therapy program, including members of the current faculty.

Dean of the Program: Dr. Dale Healey graduated from Parker College of Chiropractic in 1996 with a bachelor's degree in anatomy and a Doctor of Chiropractic degree. He joined NWHSU as the Dean of the School of Massage Therapy in September of 2002. He spent the five years previous to joining NWHSU at Myotherapy College of Utah, a massage therapy school in Salt Lake City, Utah, where he was the Education Director and an instructor. Dr. Healy enjoys being involved in education and finds dealing with students exciting and energizing.

Burnsville Natural Care Center
School of Massage Therapy
Teaching Clinic

12445 River Ridge Boulevard
Burnsville, MN 55337
(952) 894-7620

Hours: M, W, F: 9am - 6:30pm
Saturday: 9am - 12pm

The clinic was established September 15, 2003, for Massage Therapy. Dale Healey, DC, dean of the school of massage therapy of Northwestern, is excited about the move, "I think it's a fantastic opportunity for us. The advantages include a sense of ownership, dedicated space, and complete flexibility to create our own schedules." Previously, the massage clinic was sharing space with the chiropractic student inters in the DeRusha Center (UHS).

At CDI, our subspecialized radiologists are available for consultation on your patient cases. They are here to help you determine if an MRI, CT, Nuclear Medicine, Ultrasound, Diagnostic Injection or Pain Management procedure is the most appropriate next step for your patient.

We understand that you work hard to maintain good relationships with each of your patients, and we treat them with the same respect and concern while in our centers that they receive in yours.

CDI offers your chiropractic patients the comfort of:

- Hassle-free scheduling with extended evening and weekend hours,
- Eight metro area locations,
- Free, front door parking at each center,
- Spacious imaging suites with natural lighting,
- Highly trained and certified technologists, and
- Subspecialized radiologists dedicated to serving the chiropractic community.

Serving the Chiropractic Community Since 1981. That's CDI.

Call us to schedule a patient at any of our metro area locations.

CENTER FOR DIAGNOSTIC IMAGING
Student Ambassador Club

Club Facts:

Co-Presidents:
Tricia Wangerin and Michael Anderla

Events and Activities:
- Call & Chat (3x/tri)
- Email (3x/tri) potential students
- Notecard
- New Student Orientation
- Chiropractic & MCAOM Preparatory days
- Career Day
- Ice Cream Social

Club Statement of Purpose:
The purpose of the Student Ambassador Club is to ease the entrance into Northwestern Health Sciences University by providing new and prospective students exposure to the campus and to a "student's way of life" through various events and activities on campus. All members of the Club have joined because of their interest in promoting the University and the profession as a whole.

Provides an outreach program to future students and ease the entrance into Northwestern by providing exposure to the campus and to a student’s "way of life". Promotes the natural health care professions and Northwestern Health Sciences University at organized events.
The Rock

Club Facts:

Events and Activities:
- Valentine Dinner
- Speakers - Game Night
- Mission trip to Reynosa, Mexico
- Bible Studies every Tuesday from noon until 1:00

Officers:
President: Wally Schmitt
Vice President: Mike Hendricks
Secretary: Brooke Fister
Treasurer: Tracy Burmeister

Club Statement of Purpose: The Rock is a faith-based club that provides support for fellow students as they grow in faith and knowledge. The club also serves as an outlet for students and staff to connect with other Christians while becoming more involved in school activities. The Rock is named after the Bible passage Matthew 7:24, which encourages people to build their lives on a foundation of faith. Members feel it is important to incorporate faith into chiropractic, massage therapy, and acupuncture because they believe health is not only physical, but rather a combination of physical, mental, emotional, and spiritual elements. Club members hope to incorporate these spiritual elements into their practices because they feel it will allow them to treat their patients to the best of their ability. Students at Northwestern are taught about the innate energy required for effective natural health care and members of The Rock feel that this innate energy is created by God.
Our Rhythm

Club Facts:

Officers:
President: Mercedes Livoti

Events and Activities:
- Monthly meetings/lectures
- Salsa Night
Swim Club

Club Facts:

President: Kristen Graves
Vice President: Stephany Nitchka

Events and Activities:
Practice- Monday, Tuesday & Thursday each week
Games (Water Polo)- Every 1st Thursday of each month

Club Statement: Our club gives students the opportunity to break from studying, meet new people, have a great time and stay in shape. We want to train for at least four swim meets a year along with sending students to Chiro games.
Herb Club

Club Facts:

President: Katherine Krumwiede

Club Statement of Purpose: To provide Northwestern students with opportunities for advancing the use and knowledge of medicinal plants and herbs through club activities. Club activities include guest speakers, choosing and planting herbs, and maintaining the herb garden. Past guest speakers have included Tis Mal Crow, Kathy Kornblum and Cynthia Thomas. The Herb Club website has much to offer, and all of the plants in the herb garden are labeled for use in self-study projects.
Yoga Club

Club Facts:

Officers:
President: Lisa Fredrick
Advisor: Kathy Allen
Instructor: Denise Bunch

Events and Activities:
- Yoga Therapy Talk by Denise Bunch
- Yoga Class every Thursday 5:15-6:15pm in the gym
  - Restorative Yoga: This is a special class that is taught
    before midterms and finals to help us mentally rejuvenate
    before test time. The whole hour is dedicated to allowing
    our mind and body to relax and let go of everyday stresses.

Club Statement of Purpose: The purpose of our class is
  to promote mind, body and spirit wellness.
Club Facts:

Officers:
President: Brad Woodle
Vice President of Chiropractic: Karyn Jones
Vice President of Massage: Emily Erickson
Vice President of MCAOM: Amy Moll
Secretary: Brooke Badley
Parliamentarian: Molly Masis

Events and Activities:
- Board Reviews prior to March/September boards
- Seminars on a variety of topics
  - Intramural sports
  - Building improvements
  - Providing legislative information/involvement opportunities
  - Program wide information day
- Social Events such as Spring Fling, Halloween Party, Summer Jam
- Provider of MASH notes

Club Statement of Purpose: The University Student Senate is active throughout each trimester working on several levels toward student involvement within the school. Each trimester in all the programs, representatives are elected to endorse the ideas, desires and situations of their peers. The goals of the Student Senate include working to assure student involvement and input within the University, providing opportunities for educational involvement and creating an atmosphere that allows for the integration and expression of the three programs within the University.
Torque Release Technique (TRT)

Club Facts:

Officers:
President: Brooke Fister
Vice President: Zen Matsuda

Club Statement of Purpose: TRT Club is a new technique club that teaches the concepts of the tonal model of adjusting, the 14 Indicators of Subluxation, and the Non-linear Testing Priorities for adjustment. We want to give students at Northwestern the opportunity to learn a technique that is different from what we learn at school.

TRT is the first chiropractic technique that was born out of a randomized clinical trial. This study, which was published in Molecular Psychiatry, a publication of Nature, one of the most highly respected scientific journals, showed that chiropractic care has an incredible impact on the overall well-being of patients. As a club we hope to give students a very effective way to improve the health and well-being of future patients.

Pediatric Club

Club Facts:

Officers:
Co-President: Amy Larsen & Amber Sexe
Advisor: Dr. Ann Packard-Spicer

Club Statement of Purpose: To educate and provide hands-on experience to university students and faculty in the interest of pediatric health.
Roots and Shoots

Schlangen Organic Egg Farm is a small family farm run by Alvin & Alice Schlangen in Freeport, Minnesota.

The farm's 5,000 plus laying chickens are fed organic feed which includes flax that makes the eggs have a higher Omega 3 content. The chickens also have indoor and outdoor access which gives them ample room to roam.

Club Facts:
Officers:
President: Chantel Serack
Vice President: Judy Swain
Faculty Advisors: Dr. Finer

Club Statement of Purpose: To provide students, faculty and staff of NWHSU the opportunity for locally produced organic food at fair market value. The club is a Natural Food Buying Club. Food and products are ordered monthly to disperse to the members. There is no cost to be a member, just for the contents of the orders.

Summer Produce Shares
A weekly box of assorted fresh and clean vegetables, herbs, and berries for 18 weeks, delivered on Wednesdays. The summer boxes are full of color and flavor consisting of the staple kitchen veggies with a spattering of adventure and specialty items.

Winter Produce Share
5 boxes of winter greens and storage vegetables delivered every other-week to your pick-up site. This is an excellent choice if you like to stock-up on onions, potatoes, winter squash, garlic, carrots and more!

The Bad Axe Farmers Alliance is made up of three farms near the Bad Axe River in Vernon County, Wisconsin:

One Sun Farm
Ridgeland Harvest
Roots Down Organic Farm

We are all small, sustainable farms that prioritize biological diversity and care of our soil. Each farm grows different crops for the CSA, and we all share in the work of packing and delivering boxes, and writing our weekly newsletter.
Student American Chiropractic Association (SACA)

Club Facts:

Officers:

President: Evan Frisk
Vice President: Kenzie Satter
Legislative Rep: Chris Erickson
Treasurer: Nick Rapp
Secretary: Jenny Kline
Fundraising: Jessica Tobin & Ben Ische
Community Service: Sarah Radabaugh
Communications: Colleen Boling
Speaker Series: Suzy Holmes
National Vice Leg. Chair: Tony Wangerin
Faculty Advisors:
Dr. Michele Maiers & Dr. Jonathan Williams
ACA Liaison: Dr. Howard Fidler

Events & Activities:

-Trip to Washington, D.C. for National Chiropractic Legislative Conference
-Trip to Florida for ACA House of Delegates
-SACA Day
-Dunk Tank at Summer Jam
-Bake Sales
-Concession Stands at the Metrodome
-Valet Parking, Silent Auction, and Coat Check at Homecoming
-Community Service (Leaf Raking, YMCA, Egg Hunt)
-Letter Writing Campaign for Chiropractic in the VA Hospital

Club Statement of Purpose:

The mission of the Student American Chiropractic Association is to enhance the chiropractic profession by expanding the active membership and student involvement in the American Chiropractic Association and the chiropractic profession as a whole. This task is accomplished by promoting student awareness regarding the profession. In addition, students are provided with opportunities to promote the profession and cultivate effective leaders to advance chiropractic into the future.
Student International Chiropractors Association (SICA)

Club Facts:

Officers:
President: Brooke Fister
Vice President: Scott Edlin
Treasurer: Mike Musselman
Legislative Rep: Bill Sanio

Events and Activities:
-Chiropractic Coalition National Legislative Day (April 14, 2005)

Club Statement of Purpose: SICA is a student chapter of the International Chiropractors Association. The SICA mission statement is, "To develop the awareness and understanding of chiropractic's fundamental principles as set forth by doctors DD and BJ Palmer by promoting an enthusiastic community of students through education, events, social activities and student support, while enhancing unity throughout all SICA chapters".

On Northwestern's campus, we are seeking to promote understanding of and action for legislative agendas that will benefit chiropractic and chiropractic patients. We also try to encourage students to get involved in educating the community of the benefits of chiropractic. Finally, we work to provide students with speakers and information that will expand their knowledge and thoughts about chiropractic in the world today and in the future.

NWCC Philosophy Club

Club Facts:
President: Ben Rall

Events and Activities:
-Sponsored Trip to Palmer Lyceum
-Special "Philosophy Nights" with Dr. Sinnott, Dr. Pooock, Dr. Erickson, Dr. Headlee, Dr. Lyons & Tim Fueling
-Bringing in 81 year old Dr. Doral Robb from Madison, WI to talk about Chiropractic

Club Statement of Purpose: The Philosophy Club at Northwestern is trying to help spread the understanding and value of our Chiropractic philosophy to the students. There has been a resurgence of philosophy thanks to our former Dean Rob Scott, and we as a student organization hope to help perpetuate this revivification.
