

T01 Winter 2021 Doctor of Chiropractic 01/05/2021 to 04/17/2021

****ALL CLASSES BEGIN THE WEEK OF 01/05/2021 UNLESS OTHERWISE NOTED****

During the COVID Pandemic, many of your courses have transitioned to hybrid learning or fully online courses. While these asynchronous course offerings may lead you to believe that you have “a lot of open time” in your schedule, we want to remind you of the official US Department of Education definition of what a credit hour has always meant. When you have a course that is listed as a 4 credit course, this means you may have 4 hours “in person / synchronous or asynchronous” time (perhaps previously scheduled on campus) plus 8 more hours of content and assessment responsibility. So, each 1 credit really represents 3 hours of “work”. Studying and consuming the materials may take more or less time to accomplish for each of you individually, but these are the rules the Faculty must build their course materials around. Please keep this in mind when deciding how to manage your time in the coming term.
